TEXANS UNDER ARMS IN THREE COUNTIES IN FEAR RACE FIGHT

Scheme of Ignorant Mexicans to Regain Control of Part of Texas.

DISORDER IS SPREADING

Reported That Former Carranza Soldiers Have Crossed Rio Grande.

Organized Gang Endeavoring to Start Revolt.

Brownsville, Texas, Aug. 11.—Practically every American citizen in three southernmost counties of Texas—Cameron, Hidalgo and Starr—is resting under arms tonight in fear that the overwhelming Mexican population of this section may break out in a racial fight.

The Mexican disturbance spread rapidly westward today until rumors of trouble developed at Laredo, 200 miles along the border from here. The disorder is reported here to be connected with an attempt to turn part of Texas back to Mexican control—a wild scheme backed by ignorant Mexicans, escaped convicts, fugitives from justice on the American side, and some Mexican soldiers.

Trying to Start Revolt.

The disturbance has been fanned by some of the bitter disputes of border political conditions, which, in some instances, kept the American residents of this section from realizing how strong the under current of Mexican feeling was growing.

Rangers in Hidalgo county, pursuing some of the gang which killed an American trooper near Meredes last night, captured a flag today bearing in Spanish the words: "Army of Liberation of Mexicans in Texas." They took also some literature urging Mexicans to revolt.

Army and Federal investigators declared the organizers of the trouble are working under the plan of San Diego, which calls for the death of every American male over 16 years of age in communities along the Rio Grande, and also along the border of New Mexico, Arizona and California. It has been reported to General Funston that more than 30,000 Mexicans are pledged to the organization.

Federal officials last winter believed they nipped an attempt to put this revolution into effect when they arrested a Mexican on charges of sedition, discovering in his possession details of the plan, which were published at the time.

Authorities here tonight are watching the river at a point ten miles below Brownsville, where it was reported several hundred armed Mexicans had gathered on the Mexican side, waiting to cross the Rio Grande under darkness. A Mexican rancher in Hidalgo county, fifty miles up the river from Brownsville, appealed for aid this afternoon, asserting that 80 armed Mexicans were hiding on his ranch. He said they had threatened to kill him if he reported their presence.

There were many reports here that officials on the Mexican side of the river, which is under Carranza control, are reported for some of the troubles on the American side, either by laxness of discipline or by direct connivance.

However, there is no evidence that any high Mexican authority is involved.

Officials here have reports that 1,700 former Carranza soldiers have crossed the river along a zone 120 miles wide, from a point below Brownsville to Rio Grande City, up the river. At least 30 different parties are said to have crossed.

Arrival of Troops Drive Bandits.

Arrival of troops in force from Laredo appears to have caused the bandits to shift rapidly westward today into the less populous sections between here and Laredo. Telephone messages tonight from the portions of Cameron county north of here, where disorders have been going on for two weeks, indicated that the outlaws either had left or were hiding.

About Mercedes a few miles northwest of here, rangers and cavalrymen pressed the bandits so hard today that some of them fled across the river. Cavalrymen captured 35 horses from one band near Mercedes, after a long chase, in which, so far as could be learned, no one was wounded.

Reports that politicians on the American side were responsible for the uprising aroused much resentment here.

At San Benito a mass meeting of protest was held. This meeting declared the outbreak was mainly an outgrowth of an old epidemic of lawlessness on the Mexican side.

Many Mexicans along the American side of the border appear to be entirely innocent of causing trouble, and hundreds of Mexican families are seeking

INQUIRY IS SENT TO MUNITIONS MAKERS

War Department Asks Information About Facilities.

IN CASE OF EMERGENCY

Makes Particular Reference to What Service Government Could Expect Provided Need Should Become Pressing.

Washington, Aug. 11.—American manufacturers of war supplies have been asked by the War Department for information concerning their facilities with particular reference to what service the United States government could expect from them in emergency.

With virtually every private plant in the country taxed to capacity filling orders from Europe, army officials want to know whether expansion of facilities has kept pace with the demand.

Even in ordinary times the government factories produce only a part of the arms and ammunition for the army. Measures to strengthen the national defense, are expected to result in vastly increased demands for supplies, aside from any emergency that may arise.

The following statement was issued by the department:

"Recognizing the fact that the arsenals would be unable to produce an adequate supply of war materials to meet an emergency of war, it has been the practice of the government, both in time of peace as well as in war, to purchase from private establishments a considerable part of the war material currently required.

"This policy makes it necessary for the ordnance department to obtain from these establishments from time to time information as to their ability and capacity to produce various classes of such material.

"Such extraordinary changes and unprecedented expansion of the facilities of American manufacturers, have resulted from the demands for material by the warring nations of Europe, particularly for the production of certain classes of ammunition, that it has been necessary for the ordnance department to correspondingly increase its activity to keep in touch with this industrial development. It is probable that the expansion noted has not ceased, but officials believe that a stage has been reached which renders desirable a general inquiry as to the manufacturing facilities now in existence, and with a view to obtaining information on the subject, the ordnance department is sending out letters of inquiry to a number of manufacturers, accompanied by forms designed to facilitate the making of replies.

"The War Department expressly states that it does not now contemplate purchasing any of the material manufactured as it has no special funds which may be used for such a purpose. No special inquiry is deemed necessary for the expenditure of limited funds from current appropriations which are at the bureau's disposal."

OFFICIAL DUTIES CALL PRESIDENT TO CAPITAL

Returning to Confer With Cabinet Members.

Developments in Regard to Mexico Expected in Few Days—Left Cornish Yesterday, and Will Reach Capital Today.

On Board President Wilson's Special, New Haven, Conn., Aug. 11.—President Wilson was on his way back to Washington tonight to confer with Secretary Lansing and other members of his cabinet on the Mexican and other problems. He left the "Summer White House," at Cornish, N. H., this afternoon, and will arrive in Washington tomorrow morning.

With the President back in Washington, developments are expected within the next few days in regard to Mexico. He is desirous of following the plan inaugurated when the Latin-American representatives were invited to confer on Mexican affairs, but he is also determined to afford protection to foreigners in Vera Cruz.

The President was notified late today that General Carranza had sent word to Secretary Lansing that the Mexican people view with displeasure any attempt tending to frustrate the success of Carranza forces. It was understood the President will continue with his Mexican plans regardless of Carranza's attitude. Carranza is to be given an

...ials Along the Border Request War Department for More Troops.

MEXICANS CROSS LINE

Reported Carranza Troops Try to Rally Uprising in Southeast Texas.

Washington, Aug. 11. — Raiding and guerilla fighting along the Mexican border in Texas will be met by the strengthening of the United States forces there, if Major General Funston requests it. Secretary Garrison and other officials insisted today, however, that any such troop movement had no connection with Mexican internal affairs, and would be only for protection of Americans in that district.

Department officials could get no satisfactory information of the character of the raiders. One report said about 1,000 Carranza troops from the Tamaulipas garrison had been crossing into Southeastern Texas, in the vicinity of Brownsville, to rally Mexicans in the State to an uprising.

Secretary Garrison said he had no official information of that character, and added that if Carranza troops were found in Texas, they would be disarmed and shot if they resisted.

Advices from Carranza sources at San Antonio denied that any Carranza troops had crossed the line.

Rangers Capture Flag.

Texas rangers in Hidalgo county captured a flag bearing in Spanish the inscription: "Army of Liberation for Mexicans in Texas," and officers at Brownsville said that for several days 30 or 40 Mexicans had been crossing into Texas each day, some of them having the appearance of soldiers and carrying cartridge belts.

Requests for more troops came to the War Department from officials along the border, and have been referred to General Funston, upon whom Secretary Garrison depends to report whether he can handle the situation with the force available.

Funston has ready on the border and at Texas City about 17,000 troops, infantry, cavalry and artillery.

Secretary Garrison telegraphed him today that the 12,000 mobile troops remaining at other posts in continental United States would be sent to the border, if he asked for them.

General Funston reported that the best information he could gather indicated that the raids in Cameron, Hidalgo and Starr counties were directed by Texans having headquarters in Brownsville, who, after a political feud, sent bandit gangs to rob and attack each other.

Secretary Garrison expressed doubt that Mexicans from over the border were responsible for all the disturbances.

Probably Not All Mexicans.

"Conditions on the border," said Mr. Garrison, "have no political significance. Lawless people are using this time of excitement to plunder and steal, and we are not sure that all the lawbreakers are Mexicans."

Further strengthening of the border forces will take virtually all available regular troops in the country. Officials today were considering whether it

WESTERN FREIGHT RATE INCREASES ARE DENIED

But Few Advances Allowed by Commission.

Railroads Had Petitioned For Increase on Grounds of Poor Financial Condition and Decreased Earnings.

Washington, Aug. 11.—Sweeping freight rate increases sought by railroads of Western territory on the ground of generally poor financial condition of the lines and decreased earnings, were refused by the Interstate Commerce Commission today, advanced rates approved representing a comparatively small portion of the amount sought. The commission voted 6 to 2, Commissioners Daniels and Harlan holding that additional increases had been justified by the carriers' showing.

An incomplete summary of the commission's action shows that rates estimated to produce $5,971,860 were rejected, while approved increases will add $1,632,387 to the carriers' revenues.

The decision follows extended hearings, the tariffs having been filed December 15, 1914. Further applications from the same roads are pending, affecting passenger rates, various special services to shippers and miscellaneous commodities not previously covered.

The incomplete summary of today's

CHEMICALS CAN'T DISPLACE COTTON

Britons Agitate Putting it on Contraband List.

TO KEEP IT FROM ENEMY

It is Stated in Meeting That Had Cotton Been Declared Contraband a Year Ago, the War Would be Near an End.

London, Aug. 11. — At the meeting held tonight to impress on the government the necessity of declaring cotton contraband, Sir William Ramsay, the scientist, declared cotton was the only substance required for the manufacture of munitions with which the Germans could not supply themselves. He said no chemical products could take the place of cotton in propulsive ammunition.

Sir Charles Macara, president of the Master Cotton Spinners' Association of Great Britain, presided at the meeting. An inspired statement published this morning deprecating the agitation to make cotton contraband, and intimating that negotiations with the United States on this subject were proceeding, had the effect of lessening interest in the meeting. Both the presiding officer and Secretary William, the chief speaker, were insistent, however, that immediate action should be taken.

Sir Charles said he had no doubt that the explosives manufacturers had consumed a large part of the cotton surplus created by the war and added:

"We must utilize our command of the highways of the sea, both practically and diplomatically, to prevent cotton reaching enemy countries while at the same time acting fairly in the interests of neutral countries."

Sir William Ramsay, who seconded a resolution which was passed demanding that cotton be declared contraband, asserted that while substitutes for cotton could be used in making nitro-cellulose, none of them had what was called the "ballistic power" of cotton, and if anything else were used by Germany it would necessitate enlarging the chambers of their guns and altering the sights of their rifles, an expedient which not even Germany could be prepared to adopt in the course of a great war. He declared cotton was going to Germany by devious routes. Sir William estimated that a thousand tons of cotton is used every day of the war, and he protested that it was grossly unfair to the English soldiers and their Allies that Great Britain should continue to supply Germany with this commodity.

"Had cotton been stopped at the beginning of the war," he said, "we might reasonably expect to see the war nearing an end."

A letter from Lord Beresford was read in the meeting, in which he said had cotton been declared contraband last February the war now would be approaching its final scenes.

"We don't wish to hamper the trade of the great English-speaking nation across the Atlantic. There are difficulties, but difficulties were created to be faced."

The solution proposed by Lord Beresford is for the British government to buy up the entire American cotton crop and resell afterwards, even if at a loss.

RESERVE BOARD CONSIDERING COTTON RELIEF PROPOSITION.

Involves Issue of $500,000,000 in Bank Notes to be Used in South.

Washington, Aug. 11.—After a talk today with Commissioner Harding, Representative Henry, of Texas, telegraphed Joseph Hurst, of Corpus Christi, that the Federal Reserve Board is considering a cotton relief proposition he presented involving the issue of $500,000,000 of Federal Reserve notes for deposit in the sub-treasury nearest the Southern Reserve banks.

He proposed that the reserve board advise member banks it will loan these notes to them at 2 per cent annual interest if the banks will make reasonable loans to cotton producers at 4 per cent interest for six months periods. Mr. Henry said the amount of interest was the real question at issue.

THREE BATTLESHIPS ORDERED TO WATERS OF SOUTH ATLANTIC

Secretary Daniels States No Definite Purpose for This Action.

Washington, Aug. 11.—After two days of uncertainty and wire conferences between navy officials and President Wilson, Secretary Daniels announced tonight that three battleships of the Atlantic fleet had been ordered "to Southern waters for any duty that may be required."

The ships are the Louisiana and New Hampshire, which sailed from Newport, R. I., last night, and the Connecticut now in Haitien waters. Whether they will be directed by wireless to proceed to Vera Cruz or will be kept in readiness somewhere in the South Atlantic or the Gulf of Mexico will depend on developments.

TEXAS GOVERNOR WANTS U. S. TROOPS DOUBLED

Houston, Texas, Aug. 11.—Governor Ferguson, of Texas, tonight telegraphed President Wilson asking him to double the number of Federal troops in the Rio Grande valley. He says conditions are "now perilous and grave."

BRITISH COLONISTS ASSUME OFFENSIVE AND GAIN ON TURKS

Australians and New Zealanders Almost Treble Their Former Area.

HOPE TO HELP RUSSIA

Allies Meeting With Success in Efforts to Open Dardanelles.

London, Aug. 11.—While the Russians are fighting desperately to extricate themselves from the cordon of Austro-German troops steadily pressing them more closely in Poland, their allies are working feverishly and with considerable success to open the Dardanelles, through which they hope to pour into Russia much needed war munitions.

Since Saturday night, when French-British forces were landed on Gallipoli peninsula, there has been almost continuous fighting on the Krithia road. In these operations the Australians and New Zealanders in the Anzac region, a name taken from the initial letters of the words "Australian-New Zealand army corps," co-operated with new forces further north. Following the successes of the troops on the Krithia road and those north of the Anzac zone the Australians and New Zealanders took the offensive yesterday and almost trebled the area formerly held by them. Their comrades on the north who assisted them made no further progress, however.

Turkish Guns Disabled.

Simultaneously the French battleship St. Louis attacked the Turkish batteries on the Asiatic side of the straits, which had been bombarding the allied positions on the peninsula, and put five guns out of commission. These actions are believed here to be preliminary to a much more ambitious attempt planned by the Anglo-French commanders to sweep the Turks before them. Very heavy losses have had a discouraging effect on the Turks, according to reports from Greece.

On the Eastern front Kovno is the danger point in the Russian line. The armies of Grand Duke Nicholas apparently have arrested the German offensive against Riga and Dvinsk, but are being hard pressed on the Kovno front which the Germans are attacking with guns of all calibres, including the famous 16-inch cannon, which no fortress hitherto has withstood.

On the western front little has happened beyond the usual artillery engagements.

German Submarines Active.

German submarines have renewed their activity, and in the last three days have sunk 18 vessels, 10 of which were British trawlers and four of which belonged to neutral countries. The British patrol boat Ramsey also has been sunk by the German auxiliary Meteor in the North sea. The commander of the Meteor realizing that escape from pursuing British vessels was impossible, abandoned his ship and blew her up.

There have been frequent reports today of firing heard off Helgoland but no explanation has been forthcoming.

MILITIA APPROPRIATION DIVIDED AMONG STATES

Garrison Apportions $4,000,000 Allowed by Congress.

North Carolina is Among States Receiving Increase for Supplies and Ammunition, Being Allowed $2,000 Over Last Year.

Washington, Aug. 11.—Four million dollars, this year's Federal appropriation to the organized militia, was apportioned today by Secretary Garrison. Half of the amount is for actual field service and rifle practice, and is divided among the states according to Congressional representation.

Of the $2,000,000 for supplies and ammunition $400,000 is reserved for special emergency allotment and the remainder goes to the states on the basis of efficiency plans adopted by the War Department.

Instead of making the distribution of supplies and ammunition according to paper strength of the various state organizations as last year, Mr. Garrison took into consideration actual strength at the annual inspection and the number of auxiliary branches. Every man in a field hospital and the ambulance companies was counted twice, and every man in the other branches of the auxiliary services three times so that these arms should receive adequate funds.

The result of the new plan is that New York receives for supplies and ammunition $47,000 more than last year.

REPRESENTATIVES OF SEVEN GOVERNMENTS ASK PEACE IN MEXICO

IMPORTERS URGING STRENUOUS ACTION

Toward Britain for Release of Austrian and German Goods.

HOKE SMITH SPEAKS

Tells New York Importers That Great Britain's Blockade is One of Most Flagrant and Inexcusable Violations.

New York, Aug. 11.—After listening to a speech by Senator Hoke Smith, of Georgia, more than 300 New York importers today adopted a petition urging President Wilson to take prompt and strenuous action to relieve American importers of the embarrassments of Great Britain's refusal to allow German and Austrian products to be shipped from neutral ports to the United States. Senator Smith declared that the blockade, as carried out by Great Britain, was one of the most flagrant and inexcusable violations of neutral rights in naval history.

"I have determined the only thing to do," said Senator Smith, "is to tell Great Britain to revoke the blockade order, or she can have no neutral trade with us.

Excuse Don't Make Seizure Lawful.

"The excuse that Great Britain seized vessels having cargoes of goods produced in Germany or Austria, or of goods intended for Germany or Austria, but consigned to a neutral port, as a retaliatory measure against Germany, does not make the seizure lawful.

"There is no justification for the second contention that the British were justified in their action because the United States had violated Great Britain's rights during the Civil War. The United States never committed an act, nor did our courts ever write a line, that justified the British action."

Senator Smith declared that during the Russo-Japanese war Great Britain asserted the rights of India to ship cotton to Japan. He also pointed out that the British first placed cotton on the list of articles not to be classed as contraband.

Discusses Civil War Cases.

As a contention that rulings by the United States Supreme Court did not justify Great Britain's action, Senator Smith discussed the Bermuda and Peterhof, or Matamoras cases, which arose during the Civil War. In the latter case he noted the ruling of the court which held that although the Peterhof sailed from England for Matamoros, Mexico, with contraband, conditional contraband and non-contraband goods, all intended for shipment to Texas, during the war, only the actual contraband could be seized, as a blockade could not extend to a neutral port.

Senator Smith said he had been surprised to find that the people of the United States "made so little of Great Britain's attack on our commerce," and added that the neutral countries had Great Britain at their mercy. He said:

"We can command this: 'Recognize our rights, or what will you eat?' The Administration's point of view is all right, but it has acted slowly."

Great Britain herself, Senator Smith

ARRANGEMENTS MADE FOR RUSSIAN IMPORTS

Forwarded to Petrograd to be Ratified.

Modifying the Russian Embargo Will Permit Importations to This Country Amounting to Millions of Dollars Annually.

Washington, Aug. 11. — Arrangements for handling shipments of Russian goods to the United States under the recent agreement modifying the Russian embargo were completed today by the Commerce Department. Under the plan already approved by the Russian embassy here and forwarded to Petrograd for ratification, all imports from Russia consigned to the Secretary of Commerce will be received at the office of the commercial agent of the Bureau of Foreign and Domestic Commerce in New York, who will undertake to distribute to importers, under guarantees that the goods will not be re-exported in any form.

Shippers desiring to import Russian products will be required to submit to the commercial agent a statement of the goods to be secured and to deposit a bond to be held pending the consumption of the imports, or until the end of the European war.

The Russian embargo has held up importations amounting to millions of dollars annually, importers being particularly anxious to secure the release of vetch seed, used as fertilizer, hides and skins, and mineral oils.

Appeal to Factions in Name of Humanity and National Patriotism.

REPLIES ARE REQUESTED

Further Steps Reserved, Pending Action of the Different Factions.

Governments Anxious for Peace Without War.

New York, Aug. 11.—Secretary Lansing, on behalf of the United States government and the diplomatic representatives of Brazil, Chile, Argentina, Bolivia, Uruguay and Guatemala, today signed an appeal addressed to the leaders of all factions in Mexico, asking them in the name of humanity and national patriotism, to cease their civil strife and assemble a peace conference.

The action, taken after a two-hours session, was not of a joint character, but identical. An informal but unanimous note will be sent expressing the views of the seven governments that the condition of chaos in Mexico has injured the prestige of the nation abroad and supplicating the Mexican leaders and generals to make a supreme effort to bring together all elements in the creation of a provisional government that can be given world-wide recognition.

Beyond this step today's session did not go, reserving until a later date consideration of the situation that may be created by refusal of any of the factions to participate in a peace conference. There was no discussion, in fact, of eventualities, notwithstanding that press dispatches reported Carranza's outspoken objections to the Pan-American methods of settling Mexico's struggle. The assembled diplomats took the view tonight that when their appeal is fully disclosed to General Carranza, he will not misunderstand their purposes or accuse them, as he has, of attempting to interfere in Mexico's internal affairs.

Feeling of Confidence.

When the conference adjourned tonight there was a feeling of confidence that a decisive step toward restoring Mexico to her place in the family of nations had been taken. The appeal, which is brief and courteously phrased, calls upon the Mexicans to consider the injurious effect throughout the world which the constant turbulence in Mexico has caused. The petition suggests that a peace conference be held on neutral territory in Mexico far from the roar of cannon. The governments signing it express their willingness to act, if invited, in any practicable way to assist in bringing the factions together for the conference.

The communication will be given widest publicity throughout Mexico, and will be delivered by the diplomatic and consular agents of the various governments signatory to it. Replies are definitely asked for, hope being expressed that these will be received within ten days after the communication reaches the leaders unless some just cause for delay presents itself.

Secretary Lansing, who left for Washington tonight, will show President Wilson tomorrow the text of the appeal as finally agreed upon, and a statement will be prepared by Mr. Lansing explanatory of the purposes of the appeal, which in many quarters had come to be interpreted as a forerunner of military intervention.

Not only had the Latin-American diplomats here today made it clear that they would object to such a course or any that would impair Mexico's sovereignty, but President Wilson and Secretary Lansing are equally anxious that the present peace be accompanied by no physical act. Mr. Lansing took occasion to explain to the diplomats that the warships ordered to Vera Cruz yesterday were sent for protection of Americans and foreigners. Many of the diplomats said that while this assurance was not necessary, for they thoroughly understood the purpose of the United States, it nevertheless was opportune in removing a possible misunderstanding abroad of the real motives of the American government.

Ultimately—if all peace plans fail—officials of the United States realize that the interests of foreigners may require more drastic steps, but at present it can be stated authoritatively that the plans under consideration contemplate restoration of peace in Mexico by friendly means, by using the power of recognition to assist a government into being.

Future Steps Not Determined.

No steps of definite character in the future have been finally determined on. Tentatively, however, it has been agreed to await the result of the peace conference, and if all the factions do not participate, the government set up by those elements which do attend will be given recognition provided it gives promise of stability. Immediately an embargo on arms would be enforced against all other factions, and an amnesty declared, permitting contending groups to lay down their arms without fear of punitive measures.

Recognize Triumph of Revolution.

All the ambassadors and ministers, together with Secretary Lansing, are firmly determined that the triumph of the revolution in Mexico shall be recognized.

There is no intention to afford recognition to any element except those which have overthrown Huerta and fought the present revolution with its reform program. To the revolutionary element professing liberal principles,

ROCKY MOUNT AND NORFOLK BREAK EVEN IN DOUBLE BILL

The Sailors' Last Game on Tar Heel Diamond This Season.

(Special Star Telegram.)

Rocky Mount, N. C., Aug. 11.—There was a division of honors in today's clash which brought to a close the appearance of the Norfolk Tars on the local lot this season. In the first game League was master of ceremonies and had the game much his own way, more especially when his teammates hit nicks timely and in the pinches. In the twilight session the reverse was true and the locals failed to score off McManus for the sailors, while O'Brien was hit timely, especially in the first and seventh sessions when one tally counted in each frame. There were batting features of the day and Goosetree sent four safe out of four trips to the pan in the first, while Whitted for the visitors in the closing event sent three two-baggers safe and two of them had effect in the run getting.

First game:
Norfolk . . . . .000 000 100—1 7 0
Rocky Mount . .101 000 10*—3 8 2
Nicks and tSewart Leake; and Ulrich. Umpire, McGowan. Time, 1:30.

Second game:
Norfolk . . . . .100 000 1—2 8 0
Rocky Mount . . .000 000 0—0 4 0
McManus and Eubanks; O'Brien and Ryan. Umpire, McGowan. Time, 1:10. Attendance, 7.44.

LUMBERTON TEAM DEFEATS FAST ALBEMARLE CLUB

Lumberton, N. C., Aug. 11.—Hitting Peeler hard, the Lumberton team defeated the fast Albemarle club here this afternoon by the score of 6 to 0. "Mighty" Currie, on the mound for the locals, was never endangered, allowing only seven hits, three being of the scratch variety, giving three bases on balls ,and making 11 whiff the air. Person made a perfect throw from deep center, which prevented a score.

Taguer played star ball on third.

Albemarle plays here again tomorrow; Bennettsville, S. C., Saturday.
Albemarle . . . .000 000 000—0 7 3
Lumberton . . . .000 010 50*—6 12 0

HANSON WILL SWIM.

Accepts Challenge of Geo. Raducon, of Seashore Hotel, for Purse.

Mr. George Raducon, life saver at the Seashore Hotel, at Wrightsville Beach, yesterday issued a challenge to Fritz Hanson, the welterweight champion wrestler and manager of the local athletic club, for a swimming match, allowing Mr. Hanson to name the time and the distance. Hanson accepted last night, saying that time and distance were of no importance to him, but that he would swim for a purse, the last man coming out of the water to win.

HANSON AND VALLIS CHAMPIONSHIP MATCH

The Wrestle Tonight Will be the First Championship Contest Yet.

The first championship match of the season will be pulled off in Woolvin Hall tonight at 8 o'clock, between Fritz Hanson, the manager of the local athletic club, with headquarters at the Woolvin Hall, and Paul Vallis, whom he beat in a match a few weeks ago. Hanson is off several pounds since the last match, and Vallis has gained three pounds, and the fans think it will be the closest match yet staged on the local mat.

Hanson's reputation and ability is already known to all fans in the city, both from what he has done here, defeating every man who has met him, and his past reputation as welterweight champion of the world. He had been wrestling at about 150 pounds when he defeated the several men who have come up against him in the past few weeks, and Vallis only weighed 141 when he last met Hanson. This being a championship match, it is necessary that both men weigh 145 or less. When weighed yesterday, they both made 144 pounds. Mr. D. C. North weighing Hanson at the Y. M. C. A.

Vallis says he has thrown every man he met except Hanson, who was above his weight, since six weeks ago when he was adjudged the best man of his weight at the elimination tournament at New York. He is a strong, well-built man, and from all appearances will likely give Hanson the toughest wrestle he has had this season.

The scales are at Warren's cigar store on Front street, opposite the Orton Hotel, where the men will be weighed this evening at 6:15 o'clock.

—Mr. Robert J. Redwine, of Lexington, N. C., is spending some time in the city, the guest of Mr. H. E. Walton, No. 209 Castle street.

FIRST AND SECOND WON BY MOREHEAD CITY MEN

Lexington 3rd in Horse Hose Wagon Races at Newbern.

Caswell, of Kinston, Takes Fourth and Asheville Fifth in State Firemen's Tournament—Reel Contests Today.

(Special Star Telegram.)

Newbern, N. C., Aug. 11.—The first contests of the State Firemen's Tournament here this week took place this afternoon when the horse hose wagon races were held. There were 11 entries in this contest and there was a spirited rivalry. Five prizes amounting to $275 were offered to the winners. Morehead City firemen took the first and second prizes, while Lexington took the third. Caswell team of Kinston took the fourth and Asheville the fifth.

The time made by the various entries was as follows:

East Spencer Hose Co., No. 1, 33; Morehead City, No. 2, 30; Burlington 0; Mooresville 0; Kinston No. 2, 0; Lexington 30 1-5; Statesville 0; Henderson 0; Morehead City No. 1, 29 2-5; Caswell No. 1, 30 3-5; Asheville No. 1, 31 2-5.

The Burlington team made a fair run but did not make connection at the hydrant. The Mooresville team also made a good run but the jumper failed to get off at the hydrant. The Kinston team No. 2 made two runs. On the first run the starter's bell failed to ring and they were forced to run again. On the second run their horse became wild, ran outside of the track, turned the wagon over and broke the shafts. No one was injured in the accident.

The Statesville team made a fair run but did not make proper connection at the hydrant. The Henderson team also failed to make connection with the hydrant. The Asheville team used the Newbern steam fire engine company's horse and made the fastest run of all and probably lost the first money by bad work at the hydrant.

At least 4,000 spectators witnessed the races.

Tomorrow morning the grab reel and hand reel contests will take place.

Coca-Cola

CHARACTER—Personality. When you meet a man you instinctively catalog him—decide for yourself just what kind of a man he is and whether or not you're going to like him.

If he's wishy-washy, or overbearing, or bitter, or loud, or effeminate, or dull, or uninteresting, you're through, right there.

It is character that decides you.

Beverages have character.

Some can't outlast a single meeting.

Others are wishy-washy, effeminate and uninteresting. You forget them—quickly.

Others are overbearing—too decided in flavor or effect. You avoid them.

COCA-COLA has the character, the personality of a fine, wholesome, *manly* man. It meets the palates of men and women on this common ground.

It is pleasing without being effeminate.

It is vigorous without overdoing it.

It bears repetition without losing the freshness of appeal that first charmed you.

You—be you man or woman—meet in this beverage those qualities that are admirably manly in a man.

Instantly you will decide that you like it for its character—its personality. Time will prove the soundness of your judgment.

For 29 years COCA-COLA has been put to the test. Daily for 29 years it has passed the lips of the American people—has borne the test of repetition without losing its zest.

For 29 years it has proved its wholesomeness—its vigorousness—its deliciousness—its character.

You can prove to yourself in one glassful what 29 years have built into its reputation.

Malaria a Blood Trouble
S. S. S. Conquers It!

S. S. S. Has Been the Standard Malaria Remedy for 50 Years. Relieves Malaria by Cleansing the Blood

Malaria does impoverish the blood, thereby weakening the entire system. Once the Malarial germ gets into the blood it multiplies, saturating the blood with Malarial poison and impurities. You immediately lose energy. You are a constant prey to headaches, worn-out, tired feeling. The complexion becomes sallow, the tongue coated. In order to get relief you must administer an antidote directly to the poison, and a tonic—blood nourishing food, to build up the wasted system. S. S. S. is the one thoroughly reliable blood tonic that will destroy the Malarial germs, and enrich the blood. This building up and blood cleansing process go hand in hand. You feel the effect immediately. S. S. S. begins right at the root of the trouble. It destroys the germs and poison, revitalizes and restores the red blood corpuscles. In a short time you feel the delightful sensation of relief from ague, headache, chills and fever. You soon feel the full sense of vigor that goes with perfect health. There is nothing as good. NEWS OF A DAY FROM THE STATE'S CAPITAL

Requisition Issued for Man Wanted in Moore County

Greensboro Gets Busy to Improve Sanitary Conditions—Norfolk Southern Pays $18,000 Damages —Tribute to Andrews.

(Special Star Correspondence.)

Raleigh, N. C., Aug. 11.—A requisition was issued today from the office of Governor Craig on the governor of Alabama for Paul Clark, who is wanted in Moore county for the embezzlement of funds as administrator of the estate of the late Mary Shaw Clark is at Mobile Ala., and the requisition is on application of Solicitor W. E. Brock, who writes the Governor that he has evidence that the ends of justice require that Clark be brought back to this State to answer the charges against him.

Adjutant General Laurence W. Young, who returned last evening from Camp Glenn, Morehead, where he attended the encampment of the Third Regiment troops, left this morning for Hendersonville, where he has a little daughter with typhoid fever. Mrs. Young and the children are spending the summer at Hendersonville. General Young says that the Third regiment encampment was well up to the other two regimental encampments held there this summer and that the officers and men made fine showings of proficiency.

Greensboro Takes Action.

The State Board of Health is advised from Greensboro that the city authorities are taking vigorous steps to correct the bad sanitary conditions that were declared to exist there by Dr. Rankin, secretary to the state board, who made a personal investigation in connection with the typhoid epidemic that started there. The sewerage system is to be greatly extended at once and immediate steps taken to correct the bad conditions detailed by Dr. Rankin in his report.

The negro Masons of North Carolina are moving for the erection of a grand lodge temple and a home for aged and infirm Masons, both to be located in Raleigh.

The Raleigh Chamber of Commerce takes a decided stand in favor of the $100,000 bond issue by Raleigh township for the improvement of the public school buildings in the city, including the erection of a new fireproof Murphy school building in the place of the one badly damaged by fire and the completion of the building for the Glenwood suburb. The chamber has launched a movement through Miss Hackney, the secretary of the chamber, for the procurement of one of the big league ball teams to have their training camp here next spring.

A special chamber of commerce committee consisting of Dr. Charles Lee Smith, Joseph E. Pogue, and Col. F. B. Arendell has prepared and the chamber has adopted especially beautiful tribute to the late Col. A. B. Andrews, first vice president of the Southern Railway Co., the resolutions paying tribute especially to t he splendid home life of the deceased and his devotion to his home city of Raleigh and service in the interest of the city.

$18,000 Paid Ferebee.

The Norfolk Southern Railroad Co. has paid over to Walter C. Ferebee, now of Norfolk, $18,000 in satisfaction for the judgment of the Wake county superior court for damages sustained at Wendell in 1912 when he was serving as baggage master on a Norfolk Southern train, Norfolk to Raleigh. It has been a long litigation with two appeals to the Supreme court and with quite a number of counsel interested for the plaintiff. The first verdict was for $15,000 and in a new trial ordered by the Supreme court on appeal by the railroad company a verdict was secured for $18,000. The suit was originally for $75,000. In the accident Ferebee lost a hand and had his hearing permanently injured and sustained severe body bruises.

"The Cape Fear Corporation."

A charter was issued today for the Cape Fear Corporation, Fayetteville, capital $10,000 authorized and and $300 subscribed by Franklin S. Clark, L. M. Clark and T. R. Yancey for taking over and operating the famous old Donaldson Military school under whatever name the directors may agree upon.

Another charter is for the Hot Springs Brick Co., of Shaleville, Madison county, capital $50,000 authorized and $300 subscribed by B. . Nicholson, H. P. Rich and James E. Rector, the latter of Asheville.

DOINGS AROUND DUNN.

Drainage Bonds Sold—Messer Charged With Wife Murder.

(Special Star Correspondence.)

Dunn, N. C., Aug. 11.—Jim Messer, who was arrested for shooting his wife a few days ago, was tried for murder before Justice M. T. Young. Messer's wife having died in the hospital a few days after she was found on the road between here and Duke, by mail carrier, Tyrus Thornton. Messer was placed in Lillington jail without bail to await the August term of court.

The county commissioners and town commissioners have struck a difference. They are of a different political complexion, the town Democratic and county Republican. The town elected two cotton weighers and sent up the names to the commissioners and they rejected them and put in two Republicans, Mr. Camp M. Jackson and Mr. E. V. Gainey.

Since we have painted the Washington & Atlanta highway through Harnett, the wayfarers along the highway seem to have no trouble in keeping the right roads. Almost every day we see car after car, passing, some of them tagged New York, Baltimore, Philadelphia, Washington and many other Northern points. When we get about three miles more of road worked between here and Benson, we will have a road the equal of any on the route.

The town has begun the fight on typhoid, Dr. Chas. Highsmith, town health officer, gave the treatment to more than 300 yesterday.

One thing can be said of the farmers of this section. They made good crops of oats, wheat, and German millet, all of them profitable crops this year. It has been demonstrated that more feed can be made on an acre in German millet than any other kind of grass or grain.

The Stewarts Creek drainage bonds have been sold to Messrs. Jno. Nuvens & Co., of Chicago. Mr. Hodges, of Kinston, is here, getting his machinery in place to begin work. Several thousand acres of fine land will be drained on the Cape Fear river. The bonds were deposited with the Cape Fear Bank here. The proceeds will reach between $25,000 and $30,000.

BIGGEST TOBACCO SEASON YET.

That is What Wilson Tobacco Men Are Anticipating.

(Special Star Correspondence.)

Wilson, N. C., Aug. 11.—Only a few days and the Wilson tobacco market will open for the season. Both buyers and farmers are feverishly watching for the opening break. The past four weeks has brought decided improvement in the crop of this section and warehousemen anticipate the biggest season ever known in Wilson.

Last season this market sold 30,954,920 pounds, falling just a little short of 31,000,000 pounds. The average price for the season being $13.25. Prior to 1914 the banner year in sales was 1913, with a total of 20,819,160 pounds at the average price of $19.03. The season of 1912 is featured with the highest average price, the market that year selling at $19.88.

MURRELL HOLDERBY APPEALS.

From Sentence of Six Months for Shooting at Walter Medlin.

(Special Star Correspondence.)

Wilson, N. C., Aug. 11.—Murrell Holderby, who shot at Walter Medlin several weeks ago, the shot hitting a button on Medlin's coat, was given six months on the roads by the recorder of Nash county. The shooting occurred just over the county line. It was a miraculous escape for Medlin. Everybody thought that he was dead, and so did Holderby, who fled. When he learned that the bullet hit a button, therefore saving Medlin's life, he came back. Holderby, through his attorney, O. P. Dickinson, of Wilson, appealed to the Superior court.

S. D. GORDON AT MONTREAT

World Famous Bible Teacher to Be Heard by Presbyterians.

(Special Star Correspondence.)

Montreat, N. C., Aug. 11.—The fact that S. D. Gordon, one of the best known Bible students, Bible teachers and Christian workers of America and of the world, is to be at Montreat again will be welcome news to those who heard him with such pleasure and profit here during the summer of 1914 and it will be welcome news to those who have never heard him but who have been benefited through the reading of his books.

The closing conference of the Montreat programme will begin on August 16 and on that date Mr. Gordon will begin his addresses and he will be heard each morning and each evening for one week. He is not a minister, but is a layman who has been largely and wonderfully used in Christian work in America and wherever he has been heard in foreign countries. He is a native of Pennsylvania and began his Christian work as secretary of the Y. M. C. A. of Philadelphia. He became interested in the work of the great evangelist, D. L. Moody, and was a personal worker in a number of the meetings conducted by Mr. Moody, and as the result of this work Mr. Gordon began public evangelistic work himself. In addition to his work in the North, he has done most successful evangelistic work in practically all of the large cities of the South and he has made a world tour of mission stations and in these stations he has engaged in personal work that has been quite as effective as that which he has done at home.

LOST HIS LIFE BEATING TRAIN

Negro Killed at Wilson When He Leaps From Moving Freight.

(Special Star Correspondence.)

Wilson, Aug. 11.—The second fatality within three days resulting from the practice of "beating trains" occurred here early this morning, when Will Jenkins, colored, was killed by jumping from a swiftly moving eastbound Norfolk Southern freight train, just outside of the Wilson corporate limits. Jenkins and Charles Faucette were coming from Wendell to Wilson. There they had been working for R. G. Lassiter and were going to work here. It is the supposition that Jenkins, having heard that hoboes were arrested in Wilson, jumped off and was going to walk to town. Freights usually run about 25 miles an hour ,at the point where he jumped. His hat was found a car-length from his body, and the ground showed that he was thrown quite a distance.

DOUBLE SALES FROM BEGINNING.

Rocky Mount Tobacco Men Expect Unusually Good Season.

(Special Star Correspondence.)

Rocky Mount, N. C., Aug. 11.—With the opening of the Rocky Mount tobacco market less than one week off, preparations are being consummated at this time for what it is contemplated will be the biggest opening in the market's history, and the indications are that there will be a full realization of the plans which include for the first time in this market's history an operation of double sales from the opening day.

The decision for double sales has been brought about by the excellent conditions of the crop and the fact that the farmers are well up with their work and many of the friends of the market have lodged a request for the doubling up so that there will be no possibility of an inconvenience from a tobacco block.

According to all reports the crop is in excellent condition.

When you go home from your work in the summer time feeling all out of sorts with a sticky stinging sensation, get a box of AMMEN'S PRICKLY HEAT & BABY POWDER and use it, and you will then feel like a new person, and glad that you are living. For the sake 25 cents get this comfort at your druggist.

Acute Articular Rheumatism

Relieved By Anti-Kamnia Tablets

The exact cause of rheumatism is unknown, though it is generally believed to be due to an excess of uric acid in the blood. It may be also said with equal truth that no remedy has been found which is a specific in all cases. In fact the literature of rheumatism shows that there are but few drugs which have not been given a trial. In the hands of one observer we find that a certain drug has been used with the utmost satisfaction; others have found the same remedy to be a great disappointment. All physicians however agree that every method of treatment is aided by the administration of some remedy to relieve the pain and quiet the nervous system and Dr. W. S. Schultze expresses the opinion of thousands of practitioners when he says that Anti-kamnia Tablets should be given preference over all other remedies for the relief of the pain in all forms of rheumatism. These tablets can be purchased in any quantity. They are also unsurpassed in headaches, neuralgias and all pain. Ask for A-K Tablets.

FORECLOSURE SALE.

State of North Carolina, County of New Hanover.

By virtue of a power of sale contained in a certain mortgage deed made and executed on the 18th day of May, 1911, by Joseph Schad and wife to George Honnet, recorded in Book 64, page 397, of the records of New Hanover County, the undersigned executor of the executrix of George Honnet will on Monday, the 30th day of August, 1915, at 12 o'clock noon, at the Court House door of said County, sell for cash, at public auction, to the highest bidder, the following described piece, parcel or lot of land, situate, lying and being in the City of Wilmington, State and County above written, and more particularly described as follows:

Beginning at a point in the Northern line of Market street seventy-eight (78) feet Westwardly from the Western line of Fifteenth street, and runs thence Westwardly along the said Northern line of Market street one hundred and twenty (120) feet, thence Northwardly and parallel with Fifteenth street one hundred and fifty (150) feet, thence Eastwardly and parallel with Market street one hundred and twenty (120) feet; thence Southwardly and parallel with Fifteenth street one hundred and fifty (150) feet to the Northern line of Market street, the point of beginning; the same being a part of Lots 3, 4 and 5, in Block 483, according to the official plan of the City of Wilmington.

German Chancellor Leading Daughter to Altar.

Chancellor von Bethmann-Hollweg, inventor of the famous "scrap of paper," the other day led his daughter Isa to the altar to give her away to Count Zech Burkersroda. This photograph shows the chancellor and his daughter on their way to the church through a throng of people collected near their home. The count is just behind. The daughter is very nearly as tall as the chancellor, and he is six feet, four inches.

TOP O' THE MORNING

And every one that heareth these sayings of Mine and doeth them not, shall be likened to a foolish man that built his house upon the sand: and the rain descended and the floods came and beat upon that house and it fell; and great was the fall of it.

—SERMON ON THE MOUNT.

There is little doubt that the Wilson way is the best way, if only Wilson can have his way.

The Russians appear to have gotten out of Galicia and Poland, carrying the trap with them.

The "hymn of hate" will never take any trenches, but it will make so many scars hard to heal that the best thought in Germany is already discouraging it.

The Bull Moose party was three years old on August 6. If Dr. Roosevelt and Wet Nurse Perkins don't get busy with the soothing syrup and things, the once lusty youngster is apt to go by the boards.

From this distance it appears that the visit of the Wilmington, Asheville, Richmond and Norfolk Rotarians to Raleigh was about the biggest event of the year in the Capital City. Raleigh's reception to the Rotarians was a royal one indeed.

The most pestiferous citizen of America today is the fellow who insists upon criticising Wilson for the manner in which he is trying to handle the controversies with Germany and Great Britain, but has no solution of the problem to offer the President.

Lumberton, N. C., as well as Wilmington is doing a few stunts in the public health line. Three hundred nurses, cooks and washerwomen have just been lined up before the superintendent of health and required to pass examination before being admitted to domestic service in other families.

The reader's hair began to stand on end as he caught the flaming head line, "Turks Deport and Mistreat Americans by the Wholesale." He had buckled on his sword and was scanning the dispatch about the Turkish suspicions of the Armenians when he came to attention and decided to go after the proof reader instead of the Turks.

Just anybody can criticise the way a gigantic problem is being handled by the man at the helm on whose shoulders the burden rests, but what is needed is a friendly suggestion from the man who is wise epough and well enough informed to point out a solution that will not leave the country in worse condition than leaving the problem unsolved.

Cities change hands in Mexico faster than the news of the changes can be secured in America and published. The American Society of Mexico sent an appeal to the American government on July 29, in which it was stated that "we have seen three changes of armed government in 30 days" in Mexico City. There was another change before the appeal was received in Washington.

According to Senator Bryant, of Durham, the fight for better treatment at the hands of the fire insurance companies and the Southeastern Tariff Association is not yet ended. He threw out a very strong hint in his address to the firemen of the State at Newbern that there will be something doing in the next Legislature—unless these "offenders" learn to be good before that body assembles again.

The easiest and quickest way for Wilson to dispose of the matters of controversy between this country and Germany and Great Britain would be to send them both an ultimatum. The Mexican matter could be disposed of for a few days in the same manner. But suppose they all should immediately tell us to pop our cap. Would the problem be solved? Would war with one, or two, or three nations at once settle the questions involved?

AS TO COTTON.

In view of all the discussion of the cotton situation both at home and abroad just now, there is peculiar interest in a reading of the various market letters of the cotton exchange members in New York, most of whom, be it said, take a rather more hopeful view of the situation than the South does, perhaps, itself.

N. L. Carpenter & Co., of New York, one of the largest exchange members, for instance, says that since their last review on July 2nd, they consider that the political atmosphere has cleared and that it is safe to say that the war cloud, which threatened to involve us with Germany, has lifted permanently. The other serious question, the freedom of the seas for our commerce with neutral nations, they think is certain of a satisfactory adjustment. Considering the latter they think that even if cotton were declared contraband, the present situation would not undergo any radical change. The action of Great Britain, in diverting cotton, suspected of any enemy destination, is now effectually preventing Germany and Austria from getting supplies; and declaring a commodity officially contraband means only that, if shipped to a hostile belligerent, its capture makes it a prize of war, without compensation to the owner, instead of allowing his claim as at present. The contraband question they consider entirely foreign and apart from our demand for full freedom of the seas in our commerce with neutrals.

Reviewing the conditions of a year ago when the cotton market broke down under the general demoralization of business, the cotton brokers now find in these reflections a very favorable condition which present conditions present, and which in themselves are sufficient answer to those who insist that cotton must go down simply because the war continues. It is only in times of unexpected convulsions that business machinery fails. Given time it will adjust itself to anything that may arise. White men have penetrated the tropical jungles of Africa and a black man went to the North Pole with Peary. If the war should last forever, the business world would find a means to adjust itself to the situation.

Discussing other phases of the cotton situation at the present time Mr. McElroy, of the Carpenter firm, says:

"The public mind has been impressed by the big surplus left over from last year. It is true that the commercial crop—that portion which came into sight—was only 15,138,000 bales, but we know from the census figures that the actual growth plus linters, was about 16 3-4 millions. But known facts have little effect on future markets. It is what is likely to happen in the unknown future which causes wide price movements.

"We think we are on the eve of just such a movement now!

"The Bureau report on August 2nd, showed a condition below the average. An average cotton crop, on a full acreage, is about 15 million bales. The official estimate of reduction in acreage of 15.7 per cent would indicate an average crop of about 12,600,000 bales, with the usual amount of fertilizer. We know that the usual amount of fertilizer has not been used this year and we know that the quality of it is low. It is not surprising, therefore, to find ideas of the new crop drifting to a figure below 12 million bales. Now, if the falling-off in this country could be made up in another direction, there would be no force to this argument; but when we know that Egypt and India have decreased their acreage about 30 per cent, and when the monsoon in India is declared to be unsatisfactory, there is no hope of padding out supplies from those quarters.

"The above remarks deal only with fundamentals. Let us consider for a moment the temporary influences. When the war broke out, spinners' takings came to a quick halt, and for many weeks and months they were very low. We must remember that up to the first of August all comparisons with last year have been made with normal conditions. One of the striking features of late has been the very large excess of spinners' takings this year as compared with the normal situation prior to the outbreak of the war. From now on, we shall compare with wartime conditions, and the showing from week to week of spinners' takings and consumption will be so striking that the bear will be on the defensive.

"We are safe in saying that this market is oversold. A 16 3-4 million American crop and demoralization in every avenue of trade, closing of the outlet of three million bales of our crop to Germany and Austria, the low price of foreign exchange, and the manifest difficulties of sea transportation have bred a race of pessimists, which, translated into market parlance, means bears. These have been predicting prices as low as those of last summer, and, holding such views, they have naturally sold short. How they are going to face the comparisons from now on in spinners' takings from week to week will soon be put to the test. Their only hope of relief lies in the possibility that the Southern farmer may hedge the growing crop by sales of futures. There is not a shadow of a chance of such a move in any volume at present prices, below or around the cost of production. Failing relief from this direction there is only one thing for the short to do, and that is, to cover. We expect to see a covering movement begin soon, and continue as weekly figures of spinners' takings drive home the folly of selling the farmer's crop short without taking the farmer into one's confidence."

THE REPLY TO AUSTRIA-HUNGARY.

Nothing else was to be expected than that the United States government should have rejected the Austro-Hungarian views recently set forth in a note from Vienna contending that the great scale on which war munitions are being exported from America to certain of the belligerents "is not in consonance with the definition of neutrality." The American government always has held that the right of American exporters to send war supplies to belligerents able to purchase and receive them is a right unquestioned, and it would have been an occasion for great surprise if the United States had abandoned its position in this respect at this time.

Personally many American citizens, who are not reaping the financial benefits from the sale of munitions in Europe, would like to see a discontinuance of the exportation of war materials to the belligerent nations—even to any of them. However, the American government has thus far taken no action whatsevr, either to promote or curtail the shipment of war supplies to any one of the belligerent nations. Of course, without action on the part of the government, American corporations and citizens will continue to sell their products wherever in the world they can find a ready market at satisfactory prices, whether that market be in Japan, the British Isles, the Philippines or the South Sea islands. The American manufacturers of war materials are interested only in the profitable sale of their products—they care not to whom they sell. Therein the manufacturers are neutral, and, in taking no action whatever with respect to the matter, the American government entertains the firm conviction that it is maintaining the strictest neutrality.

On the other hand, as has been pointed out by high officials of the American government, the only basis upon which the United States could place an embargo upon the exportation of munitions of war to one belligerent would be the presumption that the inability of that belligerent's enemy or enemies to purchase and receive these goods from America had the effect to create a disadvantage to the nation or nations thus prevented from enjoying the benefits of free importation of American manufactured war materials. Thus the action of the American government in stopping the shipment of munitions of war to those belligerents able to purchase and receive them could be nothing short of an action for the direct benefit and advantage of those belligerent nations unable—not through any fault of ours but through the exigencies of the war itself—to purchase and receive them. The only logical conclusion, then, a conclusion, too, which in time of peace would be admitted by all civilized nations, is that the very act on the part of the American government to stop the shipment of munitions to one belligerent because another could not get them would be an overt act of unneutrality which would directly benefit one of the belligerents and work to the disadvantage of another.

If at the very beginning of the war, before the conditions arose which are the occasion of the contentions as to this matter, the United States had placed an embargo on the exportation of arms and munitions of war to any and all of the belligerents, that would have been no act of unneutrality and none of the nations would have had even apparent grounds for complaint, probably, but there has not been a time in many months when such an act on the part of the government would not have resulted in a direct advantage to one side against the other in the European conflict and therefore have been a violation of neutrality.

IMPROVING OUR HIGHWAYS.

The news columns of the various State papers are now liberally sprinkled with accounts of automobile parties who are going and coming from various points where they have been on week-end, fishing and camping parties, and while the motor travel to Wilmington and Wrightsville Beach this year has been much larger than ever before, we contemplate enthusiastically what it might have been had Wilmington one or more highways leading out into the State and into South Carolina, over which automobile parties from everywhere might take advantage of our splendid beach facilities and the opportunities here for rest and recreation.

This class of travel is undoubtedly the most valuable to any resort and an unusually well-informed person is quoted as having said a few days ago that if we had the means of ingress and egress, no doubt at least a thousand automobile parties would come here each season, whereas they now go to other places where the roads are better and the comforts of automobiling are not rudely awakened with a drop into the mud or sand, or a wayside wait on account of a broken spring or dislocated driving shaft.

Brunswick county is doing well in building its part of the long-proposed Wilmington-Charlotte highway, but there is yet the question of more satisfactory ferry and causeway travel immediately into Wilmington and a few of the other counties have links of the proposed highway that ought to be improved. Much has also been done on the Goldsboro highway, but there is yet much to be done.

It ought not to be too much to expect that before next Spring and Summer, the people of Wilmington will do something to gain the support of adjoining counties in building some kind of a highway north and west that will at least give the people of the State an opportunity of coming here as they would like to come, at the same time giving automobilists here an opportunity of getting out with ease and going elsewhere.

OUR MERCHANT MARINE.

In the current number of the Southern Woman's Magazine, Will S. McGann tells something that not everybody knows. And this interesting bit of information is that there has been a period in the history of the American merchant marine when American ships carried the bulk of the world's trade and when it was the Stars and Stripes and not the British Jack that held first dominion over the seas. The story of those old-time prosperous days of sailing ships and lusty seamen is one of romance and adventure as well as of substantial achievement and the story makes a bit of interesting reading that brings with it the salty savor of the wide seas, the roar of the winds and the white glint of far white sails dropping swift beyond the horizon's line. The author of the article is a poet who, the magazine says, has here set his fancy to fact in a fashion that opens up our hearts to new dreams of adventurous prosperity.

CURRENT COMMENT.

Those who have been inclined to claim that the United States' neutrality policy favors the British Government surely must not be readers of The Fatherland, the German paper edited by Mr. Vierick. That this paper is given the freedom of the mails and of the press is one of the strongest evidences that this Government is playing fair by Germany. In any other country a paper like The Fatherland would have to pass inspection by the censor, but in the United States the freedom of the press is unhampered. Mr. Vierick has announced that he will take an active hand in the next presidential election and he will undertake to arraign the German-American voters against Wilson. Perhaps before the next campaign opens events will have a course that may reverse the policy of Mr. Vierick.—Charlotte Observer.

There is deep sympathy throughout the State concerning the death by drowning at Wilmington of four well known and highly esteemed men, two of them physicians who held warm places in the hearts of many because of their ministrations. It is when sudden death comes close to us that we feel it even in this day when there is wholesale slaughter told of day after day in the reports which come from the battlefields of Europe. The people of Wilmington mourn with deep grief two young men of that city who had attained high rank in the medical profession, and two who were visitors but who had made many friends. All North Carolina will sympathise with those whose hearts are made sad in the untimely taking off of the men whose lives went out in the waters of the Cape Fear. —Raleigh News and Observer.

Raleigh had a fine day of it yesterday, a day in August which could hardly have been built better even for the most exacting. It was Raleigh Rotarian day, and it was a day of fine weather, a day of fine welcome to the visiting Rotarians from Richmond, Norfolk, Asheville and Wilmington, a fine body of visiting Rotarians, a fine ride about the city and country, a fine barbecue, a fine lot of sport at the ball grounds, a fine garden party at the Country club. In fact, a fine day all around. Raleigh has the right to be proud of its Rotarians, and the spirit shown by the visiting Rotarians was such as to make certain that the other cities represented are proud of their Rotarians. These Rotary club members are men who are doing things in their respective communities, and the place which has such a club has a right to be proud of it and to pass on the word to other places: "Come on in, the water's fine."—Raleigh News and Observer.

All the cotton authorities are disposed to figure out a relatively safe situation against low cotton this fall. The Observer has quoted from the more reliable of these authorities and it may add what it considers an intelligent line on the situation from Memphis to the New York Post. It is written in the light of the revised cotton expectations on the basis of the Government's August report and one point brought out was that statistics showing the commercial crop of last year approximately 2,000,000 bales less than actual growth indicate the latter amount to be held in the belt at uncounted points; this, added to the fact that last year's August condition was just about one point above this year, caused traders to feel that there was as yet no danger of insufficiency of raw material for a long time to come. However, after the actual consumption statistics were received, showing a decrease of only about 400,000 compared with the previous season, and the excess, visible and invisible, only 3,000,000 bales, as compared with the beginning of the past season, more confidence was expressed in the probability that values would not work much lower.—Charlotte Observer.

DANGER AHEAD!

To the Editor of The Star:

Here is a voice crying out against a state of things approved by the people and encouraged by them. But it is a voice that speaks for something higher than popular demands.

The voice of the people may have been regarded as the voice of the heathen gods; but, when God speaks, let all the earth keep silence before Him. He said in the morning of human history, "Remember the Sabbath day ,to keep it holy." And, however men may ignore that supreme command, God will be obeyed or His word of judgment will be spoken. The Hebrew people learned that this was true, through many sad experiences; and who knows that there is a better explanation of the bloody scenes in Europe today than the "continental Sabbath" and its attendant neglect of God's worship and unavoidable law?

In the Decalogue there are ten commandments. When some are broken, the law of the land punishes the offender. When others are broken, man overlooks the offense. But God makes no distinction. So far as the Bible is concerned, there is no difference in guilt between the thief and the liar and the Sabbath breaker.

Now, our American civilization grew out of a sacred regard for God's worship and law. Our forefathers regarded the Sabbath as God's holy day; but we are learning to use the day as it suits us to do so. In the future we will find we are doing this to our national peril.

In our community, we are getting more and more into the current which is sweeping the Fourth Commandment away. If we accept the authority of the Bible, this is nothing less than treason against High Heaven and an insult to the sovereignty of God.

The outpour of people to the beaches on Sunday! Sunday concerts! Empty pews in churches, and languishing Sunday schools! What doth it all mean?

How does this comport with the warning of the old prophet, "Prepare to meet thy God."

And, now, we are to have a moving picture exhibition to advertise far and wide how we spend the Sabbath day on the beach! For one, I protest against this.

Are we to continue this way? And what will be the result?

A WONDERFUL NEW COUNTRY

The Treasurehouse and Wonderland of Eastern America.

A wonderful Railroad through a wonderful country! Such is the exclamation of surprise and delight with which visitors view the beauty and grandeur of the Appalachian Wonderland from trains of the Carolina, Clinchfield & Ohio Railway. This wonderful new Line has been built at an enormous expense of time, engineering skill and capital, as a quick-service short-line, cutting off two days in time of freights between the Central West and South-East, by a direct route through the Great Appalachian Mountain barrier. The dream of our forefathers—a direct route from "Cincinnati to the Sea"—is at last an accomplished fact and in its accomplishment the Nation has acquired a treasure-house of surpassing richness in undeveloped wealth of forests, fields and mines. A Mineral Paradise! The greatest body of standing hard-wood timber in the Eastern half of the Continent! Farm, stock and orchard lands of surpassing productiveness! The loftiest mountain peaks! The deepest canyon! The most beautiful water falls and picturesque river gorges! The grandest scenery! The highest altitudes and the most delightful and invigorating climate in Eastern America! These are but a few of the superlatives with which nature has endowed this hitherto inaccessible region whose beauties and treasures are now unlocked by modern transportation facilities.

On July 1, 1915, the passenger and freight service over the Carolina, Clinchfield & Ohio Railway was inaugurated between Elkhorn City, Ky., where connection is made with the Chesapeake & Ohio Railway, and Spartanburg, S. C., where connections are made for all points in the Southeast. The Line traverses Eastern Kentucky, Southwestern Virginia, Eastern Tennessee, Western North Carolina and the Piedmont region of South Carolina, crossing four great mountain chains, the Cumberland, Clinch, Great Smoky and Blue Ridge, which comprise the loftiest section of the Appalachian System.

This wonderful new country is bidding for men—for brains, brawn and capital—in terms of wonderful opportunity. With unlimited resources of forest, soil and mine; with close proximity to the populous consuming centers of the East, South and Central West; and with its splendid and newly acquired transportation facilities, this great new country, the latest and richest addition to the wealth of the Nation, bids highest for human enterprise and endeavor. Unfettered by fixed conditions, this new land offers almost unlimited opportunities to both capital and labor.

Come, see it for yourself, or write for descriptive literature including the scenic, resort, agricultural, horticultural, stock raising, mining and manufacturing features. Address the Information Bureau, Carolina, Clinchfield & Ohio Railway, Johnson City, Tenn.—Adv't.

STATE OF NORTH CAROLINA, COUNTY OF NEW HANOVER.

By virtue and in pursuance of a power of sale contained in a certain mortgage deed executed by Sabina Judicki to William Gregerson, on the 23d day of June, A. SANITARY CONDITIONS GIVEN CONSIDERATION

By Board of Health at Regular Monthly Meeting

Dr. Nesbitt Instructed to Prepare List for Grand Jury of Those Failing to Install Sewerage—Committee Appointed.

That the premises in the vicinity of the Front Street Market are in such condition as to make some immediate action necessary is the opinion of members of the Board of Health and at the regular monthly meeting of this body last night a committee composed of Drs. C. P. Bolles and J. B. Cranmer, members of the board, and Dr. Chas. T. Nesbitt, county health officer, was appointed to confer with a committee to be appointed by City Council and with the City Attorney with a view to determining if something cannot be done to improve conditions. The board also instructed Dr. Nesbitt to prepare a list of names of those who have failed to take any steps to provide proper sewerage for property within the sewerage district of the city and to present this list to the next grand jury.

Dr. Nesbitt said that there is now a greater willingness than ever before to comply with the sanitary laws and that many citizens are clamoring for better sewerage facilities. He said that much pressure is being brought to bear upon the Health Department by citizens who want better sewerage, to get rid of surface privies, but that in some instances property owners have not seen their way clear to take any action. He said the department has exhausted all means at its command in many instances to secure the installations of sewerage and that the only remedy seemed to be to bring the matter before the grand jury. He was getting up a list of those places which need attention, he stated, and he was instructed by the board to present this list to the grand jury. It was the general opinion that those who are able to put in sewerage and will not do so ought to be made to do so.

The committee, appointed at the last meeting to confer with a committee from City Council regarding the Front Street Market, reported that it had been decided to allow the market to be used provided it could be made sanitary. Dr. Bolles stated he would not be in favor of giving permits to occupants of the market until it was made thoroughly sanitary. The majority of the board was of the same opinion.

Mayor Moore explained that members of Council felt that it would be unwise to condemn the market because of its sanitary condition while the surrounding property was in an even worse condition from a sanitary standpoint. He brought out the fact that the City Attorney had ruled that the matter of condemning the property was solely within the province of the Board of Health.

Dr. Nesbitt stated that he and Mr. Pillet several years ago had gone over the district and had recommended a system of drainage for the district but that the matter had been blocked by property owners. He declared that the Health Department could go no further than showing the need of better conditions and that the matter of enforcing the law lay with City Council which could put in the drainage necessary and secure judgment against property owners for the amount expended up to a thousand dollars as stated in the opinion of City Attorney Ruark in an opinion relative to the abatement of nuisances in the city.

It was decided that it would be better to discuss the matter with a committee from City Council and all the members of the board voted for the appointment of a committee to take the matter in charge.

Dr. Bolles reported for the committee, appointed at the last meeting to go before Council regarding the connecting of sewers to the water mains. This matter has been discussed at meetings of City Council for several weeks. The Health Department claims the connections have not been made as fast as the plumbing has been installed while Superintendent Merritt, of the Water and Sewerage Department, stated at the last meeting of Council that citizens do not have to wait for their connections.

Dr. Nesbitt said he had written Councilman Jones, in charge of the department of Water and Sewerage, that his department has a complete detailed record of every plumbing fixture installed in the city of Wilmington since June, 1911. He said that Councilman Jones had informed him that he would confer with him regarding the matter.

With reference to the abatement of nuisances which was brought to the attention of Council by the same committee thus was referred to the City Attorney who ruled that the matter lay entirely with the Board of Health.

Chairman W. A. McGirt called attention to the bad sanitary conditions in the eastern part of the city, especially east of Ninth street. He declared that it is very necessary that something be done. He stated that the conditions are bad and he thought that members of City Council as well as the Board of Health should make an inspection and see for themselves.

The suggestion has been made that the city allow several men from the Department of Streets and Wharves to work under the direction of the Health Department in remedying the conditions compained of.

No action was taken regarding the sale of ice cream cones, although Dr. Nesbitt expressed the opinion that it would be better to prohibit their sale altogether, especially since they are sold mostly to children. Dr. Bolles also thought it would be a good thing, if the sale of cheap candy could be prohibited.

Chairman McGirt presided at the meeting and Dr. John Thames, assistant county health officer, kept a record of the proceedings. All the members of the board, including Mayor Moore, Prof. Catlett and Drs. Bolles and Cranmer were in attendance. Dr. Nesbitt was also present.

Dr. Nesbitt was given leave of absence to attend the meeting of the American Public Health Association to be held in Rochester, N. Y., in September.

Dr. John Thames, assistant county health officer, in his monthly report stated he visited during the month of July 35 indigent sick in the city and

MANY PAY TRIBUTE TO DEAD

Great Concourse of People Gather at Charlotte to Honor Memory of Dr. Caldwell and Brother.

Rev. Dr. A. D. McClure, pastor of St. Andrew's Presbyterian church, who assisted in conducting the funeral of Dr. Morris M. Caldwell and his brother, Mr. Clell S. Caldwell, at Poplar Grove Presbyterian church in Cabarrus county on Tuesday afternoon, returned to Wilmington yesterday.

Messrs. R. H. Pickett, B. H. Stephens, J. F. Jarman, J. W. Freeman, J. M. Hall, J. S. Williams, Will Newcomb and C. Bethea, the escort for the remains of Dr. Caldwell from Plantagenet Commandery, Knights Templar, also returned yesterday as did Mr. C. B. Newcomb, master of St. John's Blue Lodge of Masons.

The following is from yesterday's Charlotte Observer:

"A large gathering of friends, including escorts of honor from Charlotte Commandery, No. 2 Knights Templar and the local Pythian lodges, gathered at the Seaboard station yesterday at noon to pay their respects to the memory of Dr. Morris M. Caldwell, of Wilmington, and Mr. Clell S. Caldwell, of Cabarrus county, who were drowned in the Cape Fear river last Sunday morning while en route from the German vessel interned there. The bodies were recovered Monday and were brought here en route to the old home place in Cabarrus county where the interment was made. The concourse of friends testified to the affection and esteem in which the young men were held in Charlotte. Dr. Stanhope Caldwell, a brother, who resides at 431 Elizabeth avenue, this city, accompanied the bodies, having gone down to Wilmington Sunday night. The escort of honor from Charlotte Commandery, No. 2, Knights Templar, was in charge of Eminent Commander J. M. Oldham, Capt. Gen. W. N. Bacon and Rev. George A. Page, chaplain, and was a special mark of tribute to Dr. Morris Caldwell, who was a member of this great order. The baggage car of the Seaboard train yesterday was filled with floral offerings.

"The remains were transferred from the Seaboard to the Southern station here and were carried to Concord leaving Charlotte at 2:55 o'clock. A number of friends in addition to the funeral party went over to Poplar Tent for the funeral. Rev. Dr. A. D. McClure, pastor of St. Andrew's Presbyterian church, at Wilmington, joined the party here and assisted in the funeral yesterday afternoon at 5 o'clock. The large church building was thronged and there were so many present that the entire church yard was filled. The funeral was said to have been one of the most impressive and most largely attended ever held in Cabarrus county.

"The commandery of Knights Templar in Wilmington dispatched an escort of honor to accompany the remains of Dr. Morris Caldwell as follows: R. H. Pickett, B. H. Stephens, J. F. Jarman, J. W. Freeman, J. M. Hall, J. S. Williams, Will Rehder, C. E. Bethea and C. B. Newcomb."

MRS. MITT MOORE DEAD.

Good Woman Entered Into Rest Yesterday Evening—A Life of Service.

After an illness of a little more than a fortnight, having suffered an attack of paralysis on Saturday two weeks ago, Mrs. Mitt Moore, one of the most beautiful Christian characters in Wilmington, entered peacefully into rest at half past six o'clock yesterday evening at her home, No. 510 Princess street.

The death of Mrs. Moore will bring a pang of grief to many a heart in Wilmington, where she was known and loved for the life of service and beautiful Christian devotion which she lived. Her heart and her hand were ever responsive to her Master's bidding and she asked no higher honor than that she should live a life of service to others. She was the widow of the late Alex. A. Moore and had lived in Wilmington practically all her life, being a member of the old Front Street Methodist church and later of Grace M. E. church upon the destruction of the former in the great fire of some years ago, her church work and activities being a characteristic of a beautiful and well-rounded life. Not only in the church proper was she a faithful and devoted worker, but in the Sunday School, in the church society activities, as a member of the ladies' auxiliary of the Y. M. C. A., and as a member of the United Daughters of the Confederacy, she was always the head and front of every worthy endeavor—never so truly happy as when making others happy or ministering to the sick and suffering.

For many years she was a member of her church committee which had in hand the relief of the indigent and the sick and many are the hearts that will hold in loving remembrance her deeds of charity and self sacrifice. Praise cannot be extravagant in speaking of a beautiful life of service such as was hers.

Mrs. Moore is survived of the immediate family, only by her sister, Miss Eliza Williams, though a number of other relatives are surviving, all of whom have the tenderest sympathy of all in their bereavement.

The funeral of Mrs. Moore will be conducted at 5 o'clock this afternoon from the residence, No. 510 Princess street, the services being by Rev. L. E. Thompson, presiding elder of the Wilmington District, M. E. Church, and her former pastor, Rev. J. C. Wooten, of Raleigh, her present pastor, Rev. J. D. Bundy being away on his vacation. The interment will be in Oakdale cemetery.

BOY BREAKS ARM

Frank Jewell, Son of Mr. K. W. Jewell, Falls From Tree.

Master Frank Jewell, the four-year-old son of Mr. and Mrs. K. W. Jewell, No. 416 Church street, fell from a tree in their front yard yesterday, breaking his left arm near the wrist. He will be taken to the James Walker Memorial Hospital today and have the bone set. Frank had climbed up into the tree and was lying on a limb about ten feet from the ground when the limb broke and let him fall. He rested as easy last night as could have been expected.

To Kirkland for Interment.

Mr. and Mrs. M. W. Watkins, of Hilton, have the tender sympathy of their many friends in the death of their infant son, who died at their home Tuesday night at 10:30 o'clock. The child was just 14 days old. Mr. Hilton is the keeper of Hilton bridge. The body was taken to Kirkland for interment.

STARTS WORK ON "MOVIES"

Camera Man Took Panoramic Views of Wilmington Yesterday for Moving Picture Production.

The camera man of the National Film Corporation, who arrived in the city yesterday morning, made good progress towards the moving picture production yesterday afternoon, taking several city scenes, as well as panoramic views of the whole city, North Front street and South Front street, from three vantage points, the Murchison building, Atlantic Trust building and A. C. L. office building. He stated that he obtained some very good scenes, ones that will make an impressive appearance when shown outside of Wilmington.

Today other city scenes will be taken from various points, the fire and police review and action pictures originally scheduled for today having been postponed until Saturday afternoon at 3 o'clock. These will all take place on North Third street.

The programme for the meeting of the Moving Picture Exhibitors League next Monday has been tentatively mapped out. Mayors Moore and Wright will deliver addresses of welcome to the movie men at 10 o'clock Monday morning, and responses will be made by one or more exhibitors. One or more addresses will be made by representatives of motion picture companies, of whom quite a number will be in attendance from all parts of the country.

Hon. H. L. Godwin, congressman from the Sixth district, will next address the convention, probably about 11:30 a. m. This will be followed by the other principal address on the day, by Mr. H. B. Varner, editor of the Lexington Dispatch and Southern Good Roads. As both Mr. Godwin and Mr. Varner are gifted speakers doubtless a large crowd will avail themselves of this opportunity to hear them speak.

It was ascertained yesterday that in addition to the camera man who is to make the production, there will be another one on the scene, Mr. F. L. Plaisance, of Charlotte, official photographer in this territory for the Universal Animated Weekly, "The Movie Newspaper," issued every week by the Universal Film Company. He will make several scenes which he will send to the Animated Weekly, and which will be shown throughout the civilized world. These scenes will include the yacht and canoe races, and any other scenes which he deems worthy of taking. Mr. Plaisance is also arranging to take 200 feet of film for the "Ford Weekly" a weekly moving picture production exploited by the Ford automobile people, nad which is shown all over the United States.

COLONISTS MARKETING GRAPES IN WILMINGTON

Fine Grade Grown in Vineyards at St. Helena and Newberlin.

Wilmington grocers are now offering for sale a fine grade of Concord and Niagara grapes which came from the farms of the Carolina Trucking and Development Company at St. Helena and Newberlin. This is the second year that grapes have been sold from the vineyards at these places, the vines having been planted some three or four years ago. A fine crop was produced last year and the grapes this season are said to be far superior to those raised last year, while the yield is also much larger. While the Concord is a favorite in this section, with the Niagara as a close second, the Red Delaware, which is also being raised, on these farms, is said to be even a better grape.

Practically all the grapes are being sold on local markets, although a few are being shipped North. As the yield increases, it is planned to enlarge the shipments to Northern points. The success that the colonists have had shows what cna be done in the grape line in this section, when the proper care is used.

The soil is well adapted to grapes, and others who have experimented with growing vineyards have had fine success. The grape industry in New Hanover and adjoining counties bids fair to become one of the important agricultural industries in a few years.

LAST SAD RITES OVER REMAINS OF DR. BORNEMANN.

Hundreds of Friends Attend—Floral Designs Many and Beautiful.

The funeral of Dr. J. Henry Bornemann, whose tragic death occurred Saturday night, yesterday morning at eleven o'clock was attended by hundreds of friends and relatives. The services were held at the residence of his parents, Mr. and Mrs. J. H. Bornemann, No. 618 Orange street, thence to St. Paul's Evangelical church, conducted by Rev. F. W. E. Peschau, formerly pastor of St. Paul's, who is now here on a visit.

Many who attended said the floral designs were the most beautiful they had ever seen, showing the high esteem in which he was held. The New Hanover Medical Society attended in a body. The Wilmington Lodge of Elks and the relief department of the A. C. L. were also in attendance. Dr. Bornemann was a member of the New Hanover Medical Society, a member of the Elks, assistant chief surgeon of the A. C. L. and a member of the City Civil Service Commission.

Among the relatives from out of the city who were here to attend the funeral were Mr. and Mrs. H. Offermann, of Charlotte, cousin of Dr. Bornemann, and his sister, Mrs. Geo. Edwards, of Chicago.

Following the services at the church the body was tenderly borne to Oakdale cemetery, where the body was laid to rest. The pall-bearers were: Honorary, Dr. George Thomas, Messrs. Herbert O'Keef, J. F. Sears and Dr. E. C. Breeding, superintendent of the Coast Line hospital at South Rocky Mount; active, Louis Goodman, Esq., Dr. John C. Wessell, Messrs. T. D. Love, S. J. Ellis, Peter Fick, Eduard Ahrens.

Grand Chancellor Here.

Grand Chancellor J. G. Baird, of the Grand Lodge of North Carolina, Knights of Pythias, will be in Wilmington tomorrow, according to a letter sent to Capt. Thos. D. Meares, Supreme Master of Exchequer of the Supreme Lodge. Grand Chancellor Baird will be on his way to Southport for an official visit to the Pythian lodge there. He will stop here for a conference with Captain Meares.

TRIP PLEASES ROTARIANS

Wilmington Was Well Advertised at Feast in Capital City—Displayed Bathing Suits.

The members of the Rotary Club, who went to the big Rotary meeting in Raleigh, returned yesterday delighted with the trip and the advertising accomplished while there.

Wrightsville Beach was played up as an asset to the city among the many other things, their two big banners reading, "If you want to live, try Wilmington," and "Gee! But ain't it fine at Wrightsville Beach!" The Rotarians went out to the ball game in the afternoon, the Wilmington delegation adorned with bathing suits, one member carrying a Japanese parasol, four men carrying the two big banners, each of which was signed across the bottom with the name, Wilmington Rotary Club, and the whole party coming behind wearing attractive badges.

The badge was one of the best at the meeting in the opinion of Wilmington Rotarians. It was a white ribbon, printed in black and red. The emblem at the top was "Service Before Self." Then came, "The Rotary Club of Wilmington, North Carolina, 'The Gateway Port' Wilmington, the port to Panama, deep water, competing railroads, harbor facilities, factory sites, commercial center, 'Nature's Garden Spot,' fourth in cotton exports, third in fertilizer distribution in the South. Wilmington 'The City of Opportunities'."

Good fellowship was in evidence everywhere and friendly rivalry made the meeting more pleasant. Wilmington was well up in making one of the best displays at the meeting. Mr. S. M. Boatwright, first vice president of the Wilmington club, in the absence of President Murchison, who is in the West, made an interesting impromptu speech at the business meeting. Each club was sincere in expressing their appreciation to Mr. W. H. Bagley, chairman of the entertainment committee of the Raleigh Rotary Club, for the perfect service and unexcelled entertainment.

Among the interesting features of the meeting was the cool way in which Mr. C. W. Rogers, the ice man, conducted himself. Another feature was the foot race between Mr. Roger Moore and Mr. Meares Harriss, that temporarily broke up the baseball game between Raleigh and Durham. Richmond thought she had it on all of them when she came out with the banner, "Yes, Richmond is a good town," but Norfolk put one over her by coming out with hers, "Yes, but Norfolk is a better town."

A number of the members who attended the Raleigh meeting say they never expect to miss another meeting when they have an opportunity to attend. The Wilmington members who attended were Herbert McClammy, J. S. Williams, S. D. Lucas, B. W. Thacker, Thos. R. Ames, H. D. Springer, Meares Harriss, E. L. White, John Sternberger, J. B. McCabe, Milton Calder, J. B. Rice, G. K. Patterson, C. R. Humphries, S. M. Boatwright, W. I. Baxter, D. C. Love, M. A. Curtis, Eric Norden, W. D. MacMillan, Jr., P. B. Bell, C. W. Rogers, Will Rehder, Roger Moore, C. W. Polvogt and W. A. McGirt.

HAD TO PAY FOR AUTO

Differed With Wilmington Taxicab Co. —Few Cases Yesterday.

John Bizzell, colored, had a wrangle Tuesday with the Wilmington Taxicab Company over the payment for use of an automobile. John engaged a taxi in which to take a friend riding. He went to the home of his friend, who refused to go with him. After spending the time allowed him in trying to persuade his friend to go he returned the car and wanted to pay only $1, since he failed to get his ride, but the company held out for $2, and had Bizzell arrested for violating a city ordinance. The Recorder dismissed him on payment of the $2 to the company.

George Shepherd and Tom Hawkins, both colored, were tried for an affray. Shepherd was found not guilty, while Hawkins was found guilty and taxed with costs. Annie McRae, colored, charged with an assault with a deadly weapon was found not guilty. The case against Joe Byrd for alleged violating city ordinance was continued.

MANY SEE DEMONSTRATION

V-Shaped Road Drag Now Lies on Courthouse Lawn—Boys' Patrol.

There was quite a number at the court house yesterday at noon to see Mr. Hampton Rich, author of the Boys' Road Patrol, make and demonstrate the V-shaped drag, which is recognized as the best equipment of the boys of the Road Patrol, as it is now organized in ten counties in North Carolina. The drag when finished was turned over to the county officers. Mr. Rich, who is at Wrightsville Beach writing a book on the subject of Boys' Road Patrol, asked the officers present for their support in establishing a patrol system here similar to that in the ten other counties.

MARRIED HERE YESTERDAY.

Young People from Tennessee Plight Their Troth in Wilmington.

Mr. James B. Thomas, of Johnson City, Tenn., and Miss Vona Keefevver, of Jonesboro, Tenn., were married in Justice Bornemann's office yesterday afternoon. Both are young people and came to Wilmington for a brief visit. They stated they did not wish the marriage to be announced just yet as they expected it to be a great surprise to their friends when they return home. Justice Bornemann officiated at the wedding in his own well known graceful manner.

Successful Auto Tour.

A post card from Mr. C. W. Leighton, of this city, who, with a party, is on an automobile tour from Wilmington to New York, advises friends here that he reached Baltimore Tuesday night at 8 o'clock. They are having a fine trip, having made Baltimore from Richmond, a distance of 185 miles in a day. The roads, Mr. Leighton says, are much better than he expected and improving as his travels take him further North. Thus far he has had only one puncture and the time he has made is remarkable for strange roads all the way.

Mr. Brimmer in Greensboro.

His many friends in Wilmington will be interested in learning that Mr. M. H. Brimmer, for a number of years in the undertaking business in Wilmington, has accepted a position with a large undertaking establishment in Greensboro and has already entered upon his new duties. Mr. Brimmer is well equipped by experience and training for his business and is in addition very popular with all who know him. His friends will wish for him the greatest success in his new field.

To Those Who Would Name A Personal Friend As Executor and Trustee

Often it is desired to keep an estate under the supervision of a friend or member of the family, and yet avoid the dangers of individual trusteeship, such as illness, death or other circumstances that may impair the estate.

This may easily be accomplished by naming The People's Savings Bank as co-executor and co-trustee.

Such a precaution is particularly advisable when a wife or other woman relative is to be executrix and trustee, because the Bank can relieve her entirely of the heavy responsibilities and arduous details, as it has an unexcelled organization and wide experience in handling personal trusts.

Warsaw, N. C., Aug. 11.—Miss Bettie Cox gave a porch party in honor of the visiting young ladies, at her home from 10 to 12 Tuesday morning. The decorations were in a color scheme of green and white. Five tables of progressive rook were played, when it was found that Mrs. Ralph Honeycutt had won the first prize, a box of correspondence cards, which she presented to Miss Sara Condon, of Wilson. The consolation prize went to Miss Sallie Hill. A delicious salad course in green peppers, with iced drinks decorated with white flowers, was served. Miss Estelle Cox, of Wilmington, and Miss Sara Condon, of Wilson, were the out-of-town guests.

MRS. BURKHEIMER TO MOVE HOME TO WADESBORO

Mrs. Dudley Burkheimer and daughters, who formerly lived in Wilmington, but now reside in Charlotte, will move their home to Wadesboro in a few days. The Charlotte News has the following to say of their leaving Charlotte.

"The many friends of Mrs. Dudley Burkheimer and daughters, Misses Bessie, Florence and Annie Burkheimer will regret to hear that they are to leave Charlotte. They will make their home, at least for the winter in Wadesboro, leaving next week.

"Misses Bessie and Florence Burkheimer have several engagements for the winter, presenting their plays in different cities in this and other cties.

"Mrs. Burkheimer is a prominent member of the D. A. R. and U. D. C.; is leader of the Children of the Confederacy and a valued member in all of the patriotic societies of the city. She has done valuable work in each and all, and she and her talented daughters will be missed in Charlotte's social and patriotic life."

MISS FANNIE JONES LAMB BRIDE OF MR. J. C. KING

An event of much interest to many friends in Wilmington was the marriage of Misses Fannie Jones Lamb, daughter of Mrs. Ella A. Lamb, to Mr. John C. King, at the home of the bride, No. 617 Princess street, at 3 o'clock yesterday afternoon. Rev. Dr. John M. Wells, pastor of the First Presbyterian church, performed the ceremony.

The home was beautifully decorated, the color scheme being green and white. The bride wore a beautiful traveling suit of blue taffeta with hat to match and carried a shower bouquet. The wedding was a quiet affair, only a few intimate friends of the families being present.

The groom is well known here, having come from Charleston, S. C., two years ago, to accept a position as cashier for the Standard Oil Company. The bride is an accomplished young lady and has a wide circle of friends. The happy couple left on the 3:45 train for points in the South. They will be away on their honeymoon for about ten days after which they will be at home to their friends at No. 617 Princess street.

Funeral from the residence, No. 510 Princess street, this (Thursday) afternoon at 5 o'clock. Interment in Oakdale cemetery. Friends and acquaintances respectfully invited to attend.

CARD OF THANKS.

We wish to take this opportunity of thanking most gratefully all who were so very kind to us in our recent great sorrow in the death of our beloved son and brother, Dr. J. H. Bornemann, Jr. Those who worked so faithfully in assisting with the recovery of the remains, those who helped us afterwards and made it possible by their words of sympathy and acts of kindness for us to bear our great affliction, have our most profound thanks, and each and everyone has the assurance that their kindness will never be forgotten.

MR. AND MRS. J. H. BORNEMANN AND FAMILY.

THEATRICAL

Gene Gauntier and Jack Clark excel in virile outdoor drama. Their latest masterpiece, "The Mad Maid of the Forest," heading today's bill at the Bijou, is a typical example of their convincing realism and artistry. In this two-reel Bison photoplay, there is unfolded as gripping and interesting a tale as ever was filmed by Universal.

The theme depicts the sad story of a deceived girl and of the consequences of her initial act. The moral of the drama is as old as the green hills of England, but the lesson taught is as fresh and applicable to the present day as it was thousands of years ago. It is some of Gene Gauntier's very greatest work and should not be missed. It entirely avoids the present tendency for sensationalism, maintaining, as does al Universal releases, a high moral standard, to teach a lesson plain enough for all to understand, at the same time introducing a story replete with vigorous action and entertainment.

"The Honor of Kenneth McGrath" is a sterling and strong one-reel drama featuring that popular pair, Sidney Ayres and Doris Pawn, in the leading roles. Then there's a great Nestor comedy feature, one that will appeal to everyone as one of the strongest comedy productions yet released by this company.

An added feature, in addition to the regular bill today, will be "Satanet", a one-reel production showing the thrilling feats of "Satanet", the Virginia daredevil, a steeplejack who does a whole reel of stunts in the air that will thrill and electrify you.

Paramount Day at Grand.

"The Bargain," a great sensational Western drama, released through the Paramount program, featuring Mr. William S. Hart, is on at the Grand today—western characters, western scenery—laid in the Grand Canyon of Arizona, and typical western situations. William S. Hart, the famous Broadway favorite, plays the leading role, which abounds in situations demanding daring and courageous acting. In the first scene the country is alarmed by advice that Jim Stokes, the "Two Gun Man," is in the neighborhood headed for the border, and warning is given to place a double guard around the stage on its trip through the canyon. The stage is seen traversing a winding roadway through the marvelous scenery of the Grand Canyon, and at an opportune bend in the road Jim cleverly holds up and robs the stage, extra guard and all, and from this minute the excitement starts, and if you want to see something doing in the real western life, be on hand at the Grand today. Mr. Hart has left nothing unturned to make "The Bargain" one of his best efforts before the camera. Admission for today only, Children 5 cents, adults 10 cents.

Next on the program comes a Vitagraph comedy, "The White and Black Snowball," featuring little Bobby Connelly, Mabel Kelly, William Shea and Karin Norman. It is a real scream, good, legitimate laughs. Tomorrow, the serial beautiful, "The Goddess," fourth installment with Anita Stewart and Earle Williams more interesting than ever.

CHANGE PLANS FOR S. A. L. SURGEONS, SINCE SAD DEATH

Dr. John C. Wessel and Henry Whyte Arange New Programme.

Owing to the sad death of Dr. Morris M. Caldwell, local surgeon of the Seaboard Air Line, and the death of Dr. Charles T. Harper, assistant S. A. L. surgeon, the entire programme of the convention of Seaboard surgeons will have to be changed. The revision is in the efficient hands of Drs. Jonn C. Wessell and Joseph Akermon, who have been appointed as local surgeons, and Mr. Henry Whyte, Seaboard freight agent at this point.

As was originally planned the surgeons will meet for breakfast at Hamlet Sunday and arrive at the Seashore Hotel for dinner. Dr. Wessell will preside over the meeting which he will call to order at 5 o'clock Monday evening. Invocation will be made by Rev. Father Dennen and the address of welcome will be made by Mayor P. Q. Moore, of Wilmington. The address in behalf of the medical profession will be made by Dr. W. C. Galloway. The response will be made by Dr. Jack Halton, of Sarasota, Fla., after which Dr. M. L. Wood, of Montgomery, Ala., president of the association, will make his annual address.

The annual banquet will be given in the dining room of the Seashore Hotel, over which Dr. J. M. Burke, chief surgeon of the road, will preside as toastmaster. The banquet will be attended by the ladies as well as the men. Addresses will be made by Hon. John D. Bellamy, local council for the Seaboard; A. B. Skelding, general manager of the Tidewater Power Company; Mayor P. Q. Moore and others.

The Tuesday morning session will open at 9:30 o'clock and the afternoon session at 4 o'clock. In honor of the visitors, the Tidewater will give a surgeons' ball at Lumina Tuesday night. Wednesday, the last day of the convention will be spent aboard the steamer Wilmington. It is expected that there will be more than 200 visitors at the beach during the convention.

No Action of Case.

A case against Mr. T. D. Meares, Jr., who was arrested Tuesday night by Policeman J. F. Jordan on a warrant charging him with simple assault, was not called in the Recorder's court yesterday. Mr. Meares was recognized Tuesday night for his appearance. The warrant was sworn out by R. A. Donlea. Recorder Empie said last night that he did not know when the case would be called as it had not yet come before him.

MANY ATTEND FUNERAL OF DR. CHARLES T. HARPER

Service Held at Residence Yesterday Afternoon—Interment in Oakdale.

Attended by a large concourse of sorrowing friends from Wilmington and many from nearby towns, the funeral of Dr. Charles T. Harper, whose death occurred Monday afternoon, was held from the residence, No. 1 Church street, yesterday afternoon at 6 o'clock. The services were conducted by Rev. Dr. A. D. McClure, pastor of St. Andrew's Presbyterian church, assisted by Rev. Dr. John M. Wells, pastor of the First Presbyterian church, and Rev. J. S. Crowley, pastor of Immanuel Presbyterian church.

There were many beautiful floral tributes including handsome designs from the North Carolina Medical Society, Tri-State Medical Society the New Hanover Medical Society, the Wilmington Lodge of Elks, Plantagenet Commandery, Knights Templar, Concord Chapter of Royal Arch Masons and Orient Blue Lodge of Masons. There were also many beautiful designs sent by friends.

Dr. Harper was one of Wilmington's most beloved physicians and it was with great sorrow that they gathered yesterday to pay the last sad tribute of respect to his memory.

The interment was in Oakdale cemetery and the pallbearers were as follows:

Honorary, Dr. J. T. Schonwald, Dr. Joseph Akerman, Dr. S. A. Koonce, Dr. S. M. Williams, Dr. C. P. Bolles, Dr. J. G. Murphy, Robert Ruark, Esq., and Messrs. John H. Rehder, Thos. E. Cooper, M. T. Y. McManus, R. C. Merritt, and Henry Whyte; active, Dr. John H. LeGwyn, Dr. W. Houston Moore, and Messrs. C. W. Polvogt, B. T. Hopkins, H. E. Boney and B. A. Merritt.

Relatives here for the funeral besides Fred Harper, Esq., brother of Dr. Harper, of Lynchburg, Va., were: Mr. and Mrs. E. C. Vitou, of Goldsboro, and Mr. and Mrs. Lee Bledsoe, of Baltimore. Mrs. Vitou is a sister of Dr. Harper and Mrs. Bledsoe is a sister of Mrs. Harper.

SICK SKINS MADE WELL BY RESINOL

No matter how long you have been tortured and disfigured by itching, burning, raw or scaly skin humors, just put a little of that soothing, antiseptic Resinol Ointment on the sores. The suffering usually stops right there!

Healing begins that very minute, and in almost every case your skin gets well so quickly you feel ashamed of the money you threw away on tedious, useless treatments.

Resinol Ointment is not an experiment. It is a doctor's prescription which proved so wonderfully successful for skin troubles that it has been used by other doctors all over the country for twenty years. No other treatment for the skin now before the public can show such a record of professional approval. Every druggist sells Resinol Ointment (50c. and $1.00), and Resinol Soap (25c.). They do wonders for pimples, blackheads, dandruff and chafings, and are a comfort to skin-tortured babies.

COTTON RECOVERED LOSSES

Close Firm at Advance of 15 to 20 Points—Buying Not Active But Recent Sellers Appeared to Be Covering.

New York, Aug. 11.—Cotton today more than recovered yesterday's losses and closed firm at a net advance of 15 to 20 points. Trading was not active but recent sellers appeared to be covering on less favorable weather or crop news.

There evidently was little cotton offering on the advance which carried December to within five points of last week's best level.

The market opened steady, unchanged to an advance of four points in response to relatively steady cables and sold about 5 to 6 points net higher during the first few minutes. Most of the demand seemed to be in the way of covering by local shorts, and the advance attracted some scattering pressure from operators who probably thought the demand soon would be satisfied and that the market probably would ease off should the detailed weather report for the Houston district show as much rain as indicated by yesterday's private reports. The Western belt forecast for generally clear weather held selling in check, however, and when the Texas details were published they proved a disappointment for bears.

The advance thus started was stimulated by the bullish showing of the weekly weather report and the market reached the best point of the day in the late trading, closing only a point or two off from the top under realising.

Futures closed firm.

NEW ORLEANS COTTON.

Crop Report Sent the Price Almost a Dollar a Bale Higher.

New Orleans, Aug. 11.—Reports of crop deterioration resulting from prolonged drouth, sent cotton almost a dollar a bale higher today. Little attention was paid to news of rain over night. Bulls contended that damage done through shedding and premature opening of bolls could not be repaired, and favorable features in the daily weather reports were overbalanced by the unfavorable weekly review from the Weather Bureau.

First prices were at the advance and in early trading the market stood five points up. Toward noon strongest months were 15 points up. There was much short covering in the afternoon and the gain was widened to 15 to 17 points. The close was 15 to 16 up.

Futures closed steady at an advance of 15 to 16 points: October 9.23; December 9.51; January 9.64; March 9.87; May 10.07.

Spot steady, unchanged; sales on the spot 700 bales; to arrive 750; middling 8.82.

COTTON SEED OIL MARKET.

New York, Aug. 11.—Selling of near months and purchases of later deliveries was the feature in cotton seed oil today. WEEKLY SUMMARY

Of Weather and Crop Conditions in North Carolina.

Raleigh, N. C., Aug. 11.—The Raleigh division of the United States Department of Agriculture Weather Bureau today issues the following summary of weather and crop conditions throughout the State for the past week:

"The week was favorable and all crops show considerable improvement, except over small areas where more moisture is needed. Rain during the first of the week was heavy to excessive at many places, and generally sufficient to relieve the droughty conditions. High winds on the 3rd caused slight damage to corn. Curing of tobacco has become general, with a fair to good crop. Cotton is taking on more fruit and the outlook is promising, but will be about two weeks late."

STOCK TRADING LESS ACTIVE

Broad and Strong Influences, However, Were Evident—Railway Shares Advanced in Early Dealings.

New York, Aug. 11.—The same forces which influenced yesterday's broad and strong stock market again were in evidence today, although trading was somewhat less active and realising sales were effective. Leading railway shares were lifted to higher prices in early dealings, the movement coinciding with announcement that the Interstate Commerce Commission had granted a general freight advance to the Western roads. Although these advices were disappointingly small, they served for a time to stimulate speculative demand to a greater degree.

Every division of the railway list shared in the rise, particularly Canadian Pacific and allied issues, which gained from 2 to over 5 points. The Harriman and Hill issues added 1 to 2 points to yesterday's best quotations and Southern and Southwestern issues, as well as trunk lines and unclassified stocks, made similar improvement.

Later the weight of European selling combined with heavy local realising caused material reductions. In the final hour some leaders were a point or two under yesterday's close and the entire list developed a distinctly reactionary tendency. United States Steel led the movement being offered in lots of 1,000 to 10,000 shares at from 2 to 3 points under yesterday's record price, with general irregularity in other speculative favorites.

Foreign liquidation was a recurrent feature of interest. War shares were again shunned to a place of secondary importance with declines of 2 to 8 points. Striking exceptions to this tendency were shown by Bethlehem Steel preferred at 151 1-8, Willys Overland at 186 and Studebaker at 88, all new high records. Total sales of stocks amounted to 975,000 shares.

Exchange on London and Paris fell to new low records, despite the receipt of $20,000,000 gold from London. Demand sterling was quoted at 4.74 5-8 and checks on Paris sold at 5.81 1-4.

There was a better inquiry for investment bonds, with greater activity in subordinate issues. Total sales, par value, aggregated $3,840,000. United States bonds were unchanged on call.

CHANGES REGULATIONS STEAMBOAT INSPECTION

Redfield Orders New Rules Governing Service.

He Also Orders Special Committee to Recommend Steps for Safeguarding Passenger Traffic on the Great Lakes.

Washington, Aug. 11. — Changes in the regulations of the steamboat inspection service and the appointment of a special committee to recommend steps for safeguarding passenger traffic on the Great Lakes, were ordered today by Secretary Redfield, as a result of his investigation of the Eastland disaster at Chicago.

New regulations will be based on the report of the board of inquiry which aided in the inquiry and recommended the following:

"Increase in passenger-carrying permits must be issued by inspectors only after personal inspection of the vessel, of which inspection a written record shall be made.

"All inspectors are ordered to require owners of vessels whose stability they have any reason to question, to make inclining tests on such vessels, under supervision of expert naval architects provided by the Department of Commerce."

The Department today issued this announcement:

"Instructions have been given by Secretary Redfield to the supervising inspector general of the steamboat inspection service to incorporate the suggested rules as promptly as possible in the rules and regulations of the service.

"Instructions have also been given for the formation of a committee of supervising inspectors, selected from the Atlantic, Pacific and Gulf coasts, jointly with those in charge of the two districts on the Great Lakes, to study conditions in the service on the Great Lakes with special reference to the safeguarding of passenger traffic and to take such steps in connection with the same as may seem to be necessary, suggesting such changes in the rules and regulations as may in their judgment be required."

BRITISH COLONISTS ASSUME OFFENSIVE AND GAIN ON TURKS

(Continued from Page One.)

today that the area held by the Allies in the Anzac zone on Gallipoli peninsula has been nearly trebled. Five out of six guns in the Turkish Asiatic batteries are reported to have been put out of action by the French battleship St. Louis.

An official statement given out tonight says:

"The latest report from Sir Ian Hamilton states that severe fighting continued yesterday in the Gallipoli peninsula, mainly in the Anzac zone, and in that to the north. The positions occupied were slightly varied in places, but the general result is that the area held at Anzac has been nearly trebled, owing chiefly to the gallantry and dash of the Australian and New Zealand army corps.

"While to the north no further progress has yet been made, the troops have inflicted heavy losses on the enemy and the French battleship St. Louis is reported to have put out of acelon five out of six guns in the Asiatic batteries."

OFFICIAL DUTIES CALL PRESIDENT TO CAPITAL

Invokes God's Reward For Pellagra Cure

Jumbo, Va.—J. H. Satterwhite writes: "I want to thank you for what you have done for me. You have cured my wife. God bless you in your work. I hope some day to see you; if I never see you I hope to meet you in heaven. God will reward you for your grand and noble work."

There is no longer any doubt that pellagra can be cured. Don't delay until it is too late. It is your duty to consult the resourceful Baughn.

The symptoms—hands red like sunburn, skin peeling off, sore mouth, the lips, throat and tongue a flaming red, with mucus and choking; indigestion and nausea, either diarrhoea or constipation.

There is hope; get Baughn's big Free book on Pellagra and learn about the remedy for Pellagra that has at last been found. Address American Compounding Co., Box 2097 Jasper, Ala., remembering money is refunded in any case where the remedy fails to cure.—Adv.

REPRESENTATIVES OF SEVEN GOVERNMENTS ASK PEACE IN MEXICO

(Continued from Page One.)

the United States and its Latin-American associates look for the establishment of a provisional government that will conduct a general election.

At the conclusion of today's conference Minister Peset, of Peru, called informally and learning what had taken place, and advised his government. The next session probably will be held in Washington as soon as replies are received to the appeal which is expected to be in two weeks. At the end of that time those who have not responded probably will be regarded as having no intention to answer.

CARRANZA IS DEFIANT.

Says Mexicans Displeased With Any Attempt to Frustrate His Success.

Washington, Aug. 11.—General Carranza, through his agents here, notified Secretary Lansing today that "the Mexican people view with displeasure" any attempt tending to frustrate the success of Carranza's armed forces. Carranza's message referred to the Pan-American Conference and was taken as signifying he would not agree with its action toward Mexican affairs.

Carranza's communication was regarded as little less than a defiance of the United States in its efforts to bring all the Mexican factions into a peace conference.

"Mr. Carranza and the persons who co-operate with him," says the communication, "are of the profound conviction that if the American government would know the true situation in Mexico it would understand that the only possible, just and acceptable solution would be to leave the revolution to follow its natural course until the complete victory of the party representing greater necessities and popularity."

PRELIMINARY PLANS OF NEW HOTEL RECEIVED.

Mr. Kenneth Murchison, the New York Architect, Will be Here Soon.

Mr. J. H. Hinton, proprietor of the Orton Hotel, has received preliminary plans from Mr. Kenneth Murchison, the architect, of New York, for the new hotel adjoining the Orton on North Front street. He expects to begin the construction not later than October 1st, 1916. The building is to occupy the ground now occupied by the Sterchi-Bancroft Company and by the Cape Fear Hardware Company. The plans have been reviewed by Mr. Hinton and Mr. C. E. Hooper, manager of the rton. Mr. Murchison is expected to arrive in the near future and go over the plans with Messrs. Hinton and Hooper. When the building is completed, it will be the tallest in Wilmington and substantial throughout.

MANY WILMINGTONIANS ATTEND CONCERT BY SINGING CLASS

Fine Entertainment Given at Boys' Brigade Last Night.

The concert given by the class of 14 boys and girls from the Odd Fellows' Orphanage at Goldsboro, at the Boys' Brigade armory last night was attend and enjoyed by a large audience of Wilmington people. The concert was opened with prayer by Mr. J. F. Littleton, secretary of Hanover Lodge of Odd Fellows.

A most delightful programme, consisting of choruses, solos and recitations, was rendered which the large audience enjoyed and showed their appreciation with frequent applause.

The class arrived yesterday from Southport where they entertained a large and appreciative audience with their concert.

SEARCH WARRANT ISSUED

For Sharpie Off Wrightsville Beach Said to Have Liquor Aboard.

Justice Harriss yesterday afternoon, upon affidavit of County Officer H. Mack Godwin, issued search and seizure papers to be served on the master of a small sharpie lying off Wrightsville Beach. The papers were turned over to Sheriff Cowan, who said last night that he would serve them today. He declared that taking trips out on old ocean at night was entirely too hazardous for him to undertake.

Reports have been current for some days that a small boat was transporting intoxicating drinks to various points along the coast but little importance has been attached to them. Officer Godwin says he has evidence that such is the case. The boat in question arrived on its last trip Tuesday of this week.

Real Estate Transfers.

The following deeds were filed for record yesterday: Solomon Sternberger and wife to Thomas A. Smith, for $103 and other considerations, lot on northeast corner Seventh and Wooster streets, 66 by 66 feet in size; Thomas A. Smith and wife to Solomon Sternberger, for $100 and other considerations, lot on southeast corner of Seventh and Marsteller streets, 66 by 155 feet in size; Josephine Norment et al, to Thomas L. Johnson, for $300, lot on south side of Harnett, 82 feet east of Fifth, 50 by 66 feet in size; by another deed T. J. Johnson and wife, transfer the same lot to S. A. Sullivan for $10 and other considerations; New Hanover Transit Company, to C. C. Loughlin, trustee, for $1 and other considerations, lot 2 in block 29 at Carolina Beach; Manhattan Company to J. Henry Gerdes, for $10 and other considerations, lot on east side of Sixteenth street, 88 feet north of Queen, 33 by 155 feet in size.

SEABOARD APPOINTS SURGEONS

Drs. John C. Wessell and Joseph Akerman Given Appointments.

Drs. John C. Wessell and Joseph Akerman have been appointed to succeed Dr. Morris M. Caldwell and Dr. Charles T. Harper as Seaboard surgeons in Wilmington. Both are prominent physicians and surgeons of fine ability. The Seaboard is to be congratulated in securing their services.

The Harper Sanitarium will be temporarily in the care of Dr. Joseph Akerman, who will look after this in addition to his other practice. Dr. Harper had been assistant Seaboard surgeon.

Negro Reported Drowned.

It was reported in Wilmington yesterday that a negro, whose name could not be ascertained, fell from the river boat Thelma, on which he was a member of the crew, Monday night and was drowned near King's Bluff on the Cape Fear river. The Thelma makes regular trips between Wilmington and Tar Heel and had not returned last night, although it was expected that the boat would arrive early this morning. Mr. J. W. Brooks, agent for the boat and one of the owners, said he knew nothing about the matter except from reports he had heard on the streets.

Ask Special Session Congress.

A committee representing various importers' associations was appointed to draw up a petition, to be voted on later, asking President Wilson to call a special session of Congress to discuss ways and means of relieving the importers.

LETTER TO LANSING.

Asking That Conditions Growing Out of Interference be Remedied.

Chicago, Aug. 11.—The Illinois Manufacturers' Association today addressed a letter to Secretary Lansing asking that conditions growing out of interference with American trade in noncontraband articles be remedied.

The association commends the policy of President Wilson regarding interference with trade by belligerent nations. It was declared the communication was the start of a movement that will be joined in by commercial organizations all over the country. The letter follows:

"The interference by certain of the belligerent nations in the over-seas non-contraband commerce of the United States, in violation of the rules of international law, is seriously disturbing and injuring American business and working hardship against both our manufacturers and their wage earners.

"The detention of vessels sailing to and from neutral countries is unnecessarily long, and unless expedited will render impossible business relations with those countries for the reason that freight rates are forced to prohibitive figures.

"The Illinois Manufacturers' Association is in hearty accord with the position of the President that it is not admissible that any belligerent should assume power at will to modify any doctrine of international law relative to overseas commerce."

It was announced that the letter represents the views of the manufacturers of the Middle West.

the protection of American guards in the towns. The outbreaks have been in the newer communities. Even in Brownsville today, however, the tension became unusual, but it was largely relieved by the announcement that four companies of United States infantry will arrive from Laredo tomorrow morning.

Among the leaders of the Mexican gangs are known to be two men under indictments in this country and one escaped convict from the American side.

Laredo today was disturbed by rumors that Mexicans were preparing to cross near there. Mexicans in Laredo said they believed a dangerous sentiment has been fomented among Mexicans about the alleged harm done Mexico by the United States' failure to recognize Carranza.

might not become necessary to use the National Guard should the situation take on more serious proportions. It was pointed out that some of the disturbances take place many miles from the border. Such a situation, officials say, should be met by the police powers of the State. In the absence of any call from the Governor of Texas, saying he is unable to control the situation and asking Federal aid, there is some doubt as to how far Federal troops should be used.

MILITIA APPROPRIATION DIVIDED AMONG STATES

(Continued From Page One.)

Illinois and Massachusetts each will receive $9,000 more, Michigan and New Jersey each $8,000, Connecticut $6,000; Georgia $5,000 and North Carolina $2,000.

Texas will be the greatest loser, drawing $14,000 less than last year. Alabama will receive $8,000 less, Arkansas, Maine, Virginia and West Virginia and Wyoming each $6,000; Kentucky, Louisiana, Missouri and Tennessee each $5,000; South Carolina $4,000; Mississippi and Oklahoma $2,000 each; and Florida $1,000.

LEGISLATURE ADJOURNS; NO APPROPRIATION BILLS PASSED.

Members Favoring Prohibition Credited With Causing Adjournment.

Atlanta, Ga., Aug. 11.—The Georgia General Assembly adjourned its annual session today without final action on appropriation bills and Governor Harris announced he would call an extra session probably to meet December 1.

Members who favored legislation designed to strengthen the State's prohibition laws were credited with forcing the adjournment before the session legally ended at midnight tonight, in the hope that the Governor would include the subject in his call for a special meeting.

FATHER SERIOUSLY ILL.

J. Felton Head, Esq., Called to Plant City, Fla., to be at Bedside.

J. Felton Head, Esq., received a telegram late last night stating that his father, Mr. B. C. Head, was critically ill at his home in Plant City, Fla., and was expected to live but a few hours. Mr. Head will leave on the 5:25 train this morning and will be out of the city for several days. His many friends will be sorry to learn of his father's very serious illness.

—On account of the movement of the State militia from Fort Caswell tomorrow (Friday) the steamer Wilmington will leave for the first trip at 8 o'clock instead of 9 o'clock. This schedule is for Friday of this week only.

SANITARY CONDITIONS GIVEN CONSIDERATION

Continued From Page Five

four in the county. The total number of patients treated in clinic was 63 and 65 permits were issued to the James Walker Memorial Hospital. There were six cases of typhoid reported, five of which were in Wilmington. Only one person was in quarantine at the end of the month, this being for scarlet fever.

"I have made the regular visits to the different county institutions for inspection, instruction, and treatment of chronic diseases," Dr. Thames stated. "The sanitary condition of the different institutions is as good as can be expected under the circumstances. We have had the usual number of chronic veneral troubles, all of whom are kept at East Wilmington camp. No cases of acute diseases have occurred among either the inmates or convicts during the month."

The report of the meat and milk inspector follows: "I made 34 inspections of dairies and dairy farms; the sanitary conditions, health of cattle and attendants were good. The bacteria counts and butter fat tests are as follows:

	Butter Fat Pct.	Bacteria Pct.	Score
Echo Farms (A. O. McEachern)	3.9	10,000	92
Darden & Merritt	4.4	20,000	65
A. G. Warren (pas.)	5.0	24,000	..

H. A. DeCover	4.3	250,000	60
W. A. Spencer	4.2	1,300,000	58
E. C. Craft	4.7	1,400,000	67
H. L. Kidd	4.2	1,500,000	..

"I made 576 post examinations of fresh slaughtered meats as follows: 291 cattle; 280 sheep; 5 hogs; with two cattle condemned as unfit for food purposes."

Mr. George F. Catlett, director of the laboratory, reported that he had made tests on the water supplied from the city mains each day, the total number of tests made being 217. The results of these tests are included in his report. Tests were also made several times each day of the raw water and different filter effluent, making a total of 341 samples examined chemically and 151 samples examined bacteriologically during the month. There were also tests made from wells and cisterns and 56 milk samples were examined.

Mr. H. R. Aiken, food inspector, submitted the following report of his work during the month:

"I have made 140 inspections of places handling foods and beverages and have graded 55 of these places, principally in the downtown district. Our score card system and set of boks was not completed in time to score all of the food shops this month. In addition to the above inspections I have made a number of miscellaneous inspections at the request of food dealers, including a car load of melons, premises around food shops, etc.

"I am glad to be able to report improvement in many of the food establishments. Several of the smaller ice cream factories have put in concrete floors. Several others have removed toilets from the rooms in which their cream is made and in many of the shops, under regular inspection, a marked improvement in cleanliness and sanitation is to be seen.

"The detailed list of inspections for the month is as follows:

Bakeries, 3; meat markets, 45; soda fountains, 25; ice cream and confectionery plants, 34; candy factories, 0; restaurants, 13; hotels, 1; groceries, 5; fish and oyster stalls, 10; cold storage plants 0; commission houses, 4.

"With this report I am submitting the scores of the food establishments grades this month. Under our close system of grading these scores speak very well for the general condition in most of the Wilmington stores. Also many of the merchants have expressed a willingness to co-operate with the department towards bringing about conditions as near perfect as possible, and we may look with confidence for a gratifying improvement."

Mr. E. Piner, chief of the sanitary police, reported that 14,604 inspections were made during the month, 2,700 closets condemned and ordered cleaned; 40 complaints were received and Mr. Holton reported that 2,892 closets had been cleaned.

Mr. Otto Genaust, plumbing inspector, reported that 238 fixtures were installed, 77 houses connected to sewer, 54 laterals laid, 137 permits granted, 152 inspections made and one condemnation made.

—Many friends in the city yesterday were made glad through the enterprise of Mr. F. H. Krahnke, Jr., ladies and gents' tailor, No. 2 North Second street, who sent out to his customers and friends attractive souvenir pocket combs which have been found a very useful gift.
